Appendix O: Section 71 reports not made in due time..... 293
Appendix P: National and Provincial outcomes on Local government 293
Volume II: Annual Financial Statements 293

Chapter 1 – Mayor’s Foreword and Executive Summary

The Ray Nkonyeni Municipality by the year 2036 aims to be a prime tourist-friendly, economically diversified and smart municipality with equitable access to opportunities and services in a safe and healthy environment. Our Vision 2036, as this is aptly called, is our blueprint as we aspire to deliver on services that we have committed to deliver to our community.

The financial year under review turned out to be a year of firsts for all of us in local government, and South Africa in general. Halfway through we were confronted with a then unknown virus called COVID-19, which was waging untold damage on humans the world over. As a country we were forced to shut down, putting every one of our plans in the balance. As a municipality we had to make difficult choices as we tried to balance the need for uninterrupted service delivery and the need to protect our stakeholders, both internal and external. We also had to be mindful that our residents were also affected by the lockdown, impacting on their ability to pay for services rendered.

Nonetheless during this turbulent time Ray Nkonyeni municipality made significant strides in cementing itself as a municipality that works with its people in the promotion of good governance. In as much as we could not hold our public participation platform izimbizo, as we are accustomed, the municipality ensured that our communities continue to influence our decisions by hosting targeted meetings with several stakeholders, most of which were virtual. We also received electronic inputs into the budget and the IDP. We are confident that our final budget document reflected as wide a selection of voices as was possible under the circumstances.

In this regard we had to innovate on the issue of debt control and revenue collection. In line with national and provincial government we offered several relief measures to ensure that we minimised the economic impact of the virus on both private citizens and institutions alike. In light of the devastation felt in our communities, we had to deepen our engagement with other spheres and organs of government. We have been, and remain part of inter-governmental initiatives to educate, inform and assist members of our community in dealing with the very real burden arising from the experience of COVID-19.

We are mindful that we have not been able to meet all of our objectives in the year under review, and an action plan has been developed to ensure that we deal effectively with outstanding issues so that we are able to progress to complete efficacy even under these trying conditions. Together we have done much to improve the material conditions of the majority of people living within our jurisdiction, but more than ever, much more is called upon us to do even better.

I would like to thank the political leadership for their continued support and commitment. We have also been guided by the efficient arm of our administrative management, for which we remain grateful. Together we will continue to work towards improving our performance towards the community that we serve.

Cllr NC Mqwebu

Mayor

Component B: Executive Summary

1.1 Municipal Manager's Overview

Ray Nkonyeni municipality, along with every other public and private institution, experienced an unprecedented global event during the year under review. The advent of COVID-19 brought a crisis of proportions not seen in the past and every institution had to adjust to the new normal of extended lockdowns and curfew.

Regardless, the municipality managed to remain stable and continued as far as possible to fulfil its obligation of service delivery to citizens within its jurisdiction. The constraints associated with the virus dictated that some of the projects planned and budgeted for had to be postponed or set aside, affecting the overall budget of the municipality. Additionally, some citizens who had been negatively affected by the economic lockdown were not in a position to pay for their rates and other utilities.

In its quest to render quality services the municipality concluded several partnerships to improve service delivery. These partnerships include funding to attend to ageing roads and storm water infrastructure; a matter which has been on Council agenda for some time. Progress was also made on the implementation of the Electricity Masterplan through the revenue enhancement funding from the Development Bank of Southern Africa (DBSA). This project will assist the municipality with revenue enhancement as the elements of the project are focused on optimisation of operating costs and decrease losses associated with the service.

Additionally, the municipality received funding from National Treasury for the development of a Precinct Plan for Port Shepstone urban renewal. The renewal will focus on the rehabilitation of the town's main street Nelson Mandela Drive, which will include sidewalks, aesthetic lighting and greening of the street.

Whilst *izimbizo* could not be held under lockdown conditions the municipality ensured that it continues to engage the public when developing its budget. Virtual meetings were held with stakeholder formations, ensuring that the community's voice was not lost during this process. We will continue to engage local organised formations in the quest for quality service delivery.

The road ahead will not be easy, but we take on the challenges ahead knowing that we have the support of our astute political leadership. We are grateful that they continue to lead us with a clear vision in the pursuit to meet the objectives contained in our blueprint, Vision 2036.

SM MBILI

Municipal Manager

1.2 Municipal Functions, Population and Environmental Overview

Ray Nkonyeni Municipality is a category B municipality and falls within Ugu District (DC21) found on the southern part of KwaZulu-Natal (KZN). Its administrative seat is in Port Shepstone. The municipality borders the Indian Ocean on its eastern part while the far southern part of the municipality runs Umtamvuna River which is the boundary between Kwa-Zulu Natal (KZN) and the Eastern Cape. The north-western part is bordered by Umuziwabantu Municipality while Umzumbe municipality borders the northern part and Umdoni Municipality is on its north-eastern boundary. Its boundary extends further to the hinterland which is basically rural and is administered under traditional authority. The coastal belt stretches from Hibberdene to Port Edward and covers approximately 72 km.

Vision

By 2036 Ray Nkonyeni will be a prime tourist-friendly: economically diversified and smart Municipality with equitable access to opportunities and services in a safe and healthy environment.

MISSION:

The Municipality is committed to create an enabling environment for the establishment of agricultural; maritime; leading tourism and industrial hubs to create business and employment opportunities for sustainable development and improved quality of lives through shared vision; smart service delivery solutions and collaboration with stakeholders.

The coastal belt is characterised by urban formal development and is more developed while the interior has sparsely populated housing typologies with less development. The hinterland is further characterized by steep topography which is one reason probably of less development and this has further affected the settlement patterns. The furthest northern part of the municipality is largely characterized by protected and conservation worthy areas. There are no economic nodes in the hinterland except for one small town, Izingolweni, with a few retail shops. Also in the hinterland is the breathtaking Oribi Gorge which serves as a tourist attraction as well as home to a number of rare species and indigenous forests. On the contrary, the coastal belt is completely dotted by economic nodes of different hierarchies. There are also conservation areas dotted along the coastal belt.

The municipal area covers approximately 1594km² in geographic area. Privately owned land constitutes approximately 26 500 hectares. The spatial location of the municipality is an advantage as the National Road (N2) runs through it providing accessibility and linkage with both Ethekewini metropolitan area and beyond as well as the Eastern Cape. It must be noted that Durban is the main commercial center of KZN and one of the seven metropolitan cities of the Republic of South Africa. Our municipality's close proximity to this sole metropolitan city of the province is a locational advantage.

The main urban centres are found along the coast. The inland region of the municipality as indicated earlier on has more land under the leadership of tribal authorities. Following is a table indicating towns and traditional settlements of the municipality.

Town Centres and Traditional Settlements (Table 1)

Town Centres	Traditional Settlements
Hibberdene	KwaXolo
Port Shepstone	KwaNzimakwe
Shelly Beach	KwaNdwalane
Uvongo	KwaMadlala
Margate	KwaMavundla
Ramsgate	Oshabeni
SouthBroom	Kwa Nyuswa
Port Edward	KwaMthimude
Ezinqoleni	KwaVukuzithathe

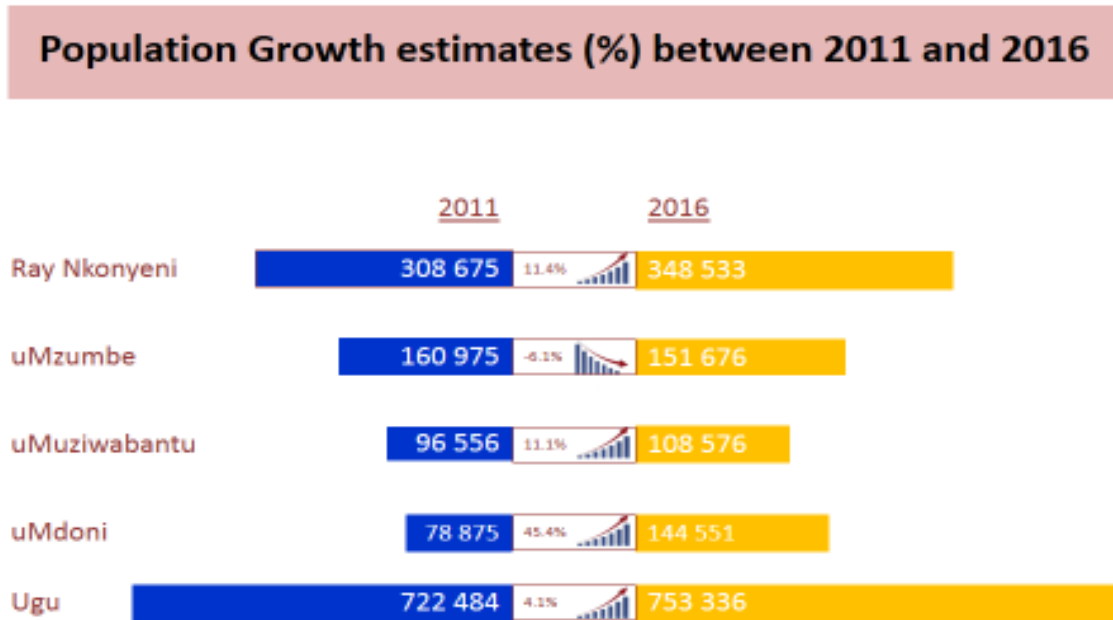

Ray Nkonyeni Municipality has a population of approximately 392 405 according to the latest StatsSA release, see below:

- Population under 15 : 34.4%
- Population 15 to 64 : 61.0%
- Population over 65 : 4.7%

The population within the municipality has been growing rapidly throughout the years due to a number of socio-economic factors. There has been a constant racial pattern as well, with Africans being dominant by a huge margin (82%) and followed by Whites (11%). The African population is distributed throughout the municipal 36 wards. Wards along the coastal belt are densely populated due to economic reasons. Compared to the other three sister local municipalities within the district, RNM has the highest population. Since 1996 to date, there has been a steady increase in the population mainly due to immigration given the better socio-economic opportunities in RNM compared to other place in the district and neighboring northern part of Eastern Cape Province. Although there was an overall increase across races, Indians fluctuated. The highest population category of the municipality is young people between the ages of 14 and 35. The entire district youth population is 434 080, with RNM alone accounting for just over 50% of this figure.

Consistent with the national trend, the municipality has less males than females. This is attributed to socio-economic factors. In as much as RNM has a thriving economy, due to the steady influx of people from other neighboring municipalities and other areas over the years, there has been a steady rise of unemployment. This has resulted in many people migrating to in search of greener pastures. Another contributing factor of why the number of males is lower is the social factor. According to the district's Department of Health, statistical information, many men succumb to diseases early in life compared to women.

Graph 1: Population Growth estimates %

Source Stats SA 2016

Dependency ratio

Ugu District Growth and Development Strategy (UDGDS) highlights that the dependency ratio within the district is quite high and there for clustering of social and economic services within rural nodes and corridors must take place to consolidate development and offer job opportunities to curb the high dependency ratio. Ray Nkonyeni Municipality is experiencing quite a lesser percentage of dependency ratio statistics in comparison to the other Ugu District local municipalities. This has been achieved partially by the initiatives the municipality has embarked on such as the development of nodes and corridors as well as the economic activities which have job opportunities. The municipality has also started developing its rural areas in terms of rural nodes.

This is in line with the PGDS initiative to develop rural nodes. For example, the Gamalakhe shopping complex is one semi- rural node that the municipality has developed. Eziqoleni is a small rural town in the hinterland of the municipality, and this also is one of the catalytic projects the municipality aims at developing to be in line with the PGDS rural development initiative. There are also Precinct Development Plans within the current SDF to develop other rural areas such as KwaMadlala and Gcilima.

Studying the graph that follows, one notices that former Vulamehlo and Eziqoleni, Municipalities within the Ugu District experienced high dependency ratios, while current municipalities that is Umzombe and

Umuziwabantu experience the same. On the other hand, former HCM and Umdoni experienced lower dependency ratios. This was attributed to the job opportunities found in both municipalities. Below is current information showing the dependency ratio in percentages within Ugu District Local Municipalities.

- Umuziwabantu Local Municipality : 58.2%
- Ray Nkonyeni Municipality : 54%
- Umdoni Local Municipality : 65.2%
- Umzumbe Local Municipality : 90%

A summary that can be drawn from the above information is that the dependency ratio amongst each Ugu Local Municipality is quite high. Many people depend on Government grants and subsidies while few hold formal jobs. It must be noted that the strategies formulated by Ray Nkonyeni Municipality will address issues of job opportunities and other means of sustainability, thereby curbing the high dependency ratio. The graph below shows a breakdown of subsidies received as a percentage of total income per each Ugu District Local Municipality before amalgamation.

Graph 2: Grants and subsidies

Source: Stats SA 2016

Education

The education levels are improving as more learners are enrolled and reach secondary level (Stats SA 2016). In the past, secondary school was the dominant level of education, and it has remained as such, and now it is also showing great improvement as the number of people at secondary school level has tripled the 2001 figures. Primary schooling has also shown great improvements as more learners are enrolled. This is in line with the 2018 SOPA whereby the Premier stated that every child must have a basic education. There are some challenges however, that are experienced within the Education Sector. A number of urban schools experience a high influx as more learners abandon rural schools. This has resulted in many rural schools with very little enrolment which may result in some being closed down. The exodus is cited as lack of proper education infrastructure and long walking distances. Enrolment in Grade Rs has also seen a steady rise over the years. This is due to the fact that the National Department of Education has made it compulsory for all learners to be enrolled at preparatory school before starting Grade 1. It must be noted that the municipality boasts preschools in almost all its Primary schools. There are also creches that are privately run as well.

There is a high dropout rate at high school level due to a number of socio-economic ills. Teenage pregnancy, orphans and the abuse of substances are some contributing factors. Ray Nkonyeni Municipality experiences the highest number of teenage pregnancy as compared to the other sister municipalities. Ray Nkonyeni also has special schools that cater for children with special needs and are fully equipped with resources. The department of education provides special support to these schools to;

- Provide curriculum delivery support to LSEN schools for purposes of improving learner attainment in line with White Paper 6 (Inclusive Education)
- Improve the performance of learners in special schools especially at the level of National Senior Certificate through teacher capacity and learner supportation.

Ray Nkonyeni has four TVET colleges, at KwaZimakwe, Oslo Beach Gamalakhe and Port Shepstone. Different courses are offered and the highest certificate obtained is the N6 which is equivalent to a college diploma. The municipality does not have a university, but has since signed an MOU with the University of South Africa to develop a university within its jurisdiction. Higher education level s(tertiary) holders within the municipality is low. This may be attributed to by a number of social factors. School drop out rate is high. Other learners are heads of their families since parents have passed on.

Graph 3: Levels of Education

Source: Stats SA 2016

There has been a decline of approximately 5 % in the matric pass rate at RNM. The table below details the pass rate.

2020 Pass	2021 pass	Target @ 5% increase/ 7%
86.80%	80.84	85.84%/ 87.84%

HIV prevalence

According to recent statistics, KZN is the worst affected in terms of HIV and AIDS and the Ugu District Municipal area with highest HIV prevalence especially amongst pregnant women visiting public health facilities. The Murchison and Port Shepstone hospitals are the two accredited Anti-Retroviral (ARV) treatment facilities within the Municipality. These two hospitals initiate ARV treatment and refer patients to the nearest clinic for follow up treatment. Integration of HIV and TB services has been strengthened by training of HIV counsellors on TB Screening.

The World AIDS Day is commemorated on an annual basis. Furthermore, the HIV and Aids jointly with the special programmes unit purchase and deliver school uniforms to vulnerable children in schools. The department of Health conducts annual HIV/AIDS surveys on women visiting antenatal clinics in the province. RNM's Council is committed in the HIV/AIDS infection reduction programme. The municipality has implemented viable programmes to fight the scourge of the disease. More educational programmes / awareness campaigns are necessary to alert the community members of the HIV/AIDS disease.

It will be important to factor into planning the impacts associated with this pandemic and provide adequate services to those living and affected by the virus. Furthermore, it is critical to involve the ward committees, Local AIDS Council and people living with HIV/AIDS in the IDP Forum to discuss issues that affect them and planning matters. The epidemic, for example, will affect infrastructure planning by reducing the projected number of people, impacts on households requiring services as well as their ability to pay for these services and increased demand for health care facilities and social services.

Murchison and Port Shepstone hospitals are the two accredited Anti-Retroviral (ARV) treatment facilities within the Ray Nkonyeni Municipality. These two hospitals initiate ARV treatment and refer patients to the nearest clinic for follow up treatment. The following clinics offer follow up treatment: Margate, Gamalakhe, Bhobhoyi, and Ntabeni. Other clinics refer clients to one of the two hospitals for ARV treatment. All clinics however provide screening, counseling and taking blood samples as part of the ARV roll-out programme.

Given the limited resources and strained health system, the demand for ARV's is outstripping the capacity to deliver. Of concern is the long-term sustainability and equitable distribution of the roll-out programme. Pressure to meet target numbers must be tempered by the need for rational drug use by dispensers, providers and consumers.

Natural Resources

Ray Nkonyeni boasts of a number of natural resources that have provided job opportunities. To mention some:

- the ocean for an example and its alignment to tourism
- The Red dessert
- The KwaXolo Caves and Nyandezulu trail which are rural cultural rich
- The Oribi Gorge which is the largest tourist attraction is also one of the assets the municipality lists under its natural resources

The Municipality has various natural resources ranging from the coastal belt, nature reserves, 3 critically endangered ecosystems (Interior South Coast grasslands, Margate Pondoland-Ugu Sourveld, and the Southern Coastal Grasslands). There is one endangered ecosystem (Oribi-Port Edward Pondoland-Ugu Sourveld) and 3 vulnerable ecosystems (KwaZulu Natal Coastal belt, Ngongoni Veld, and the Pondoland Scarp forest). The Municipality is currently embarking on establishing its Environmental Management Plan which should assist in identifying environmentally sensitive areas, this will assist in ensuring that the Municipality can inform communities and developers before any development occurs that certain areas are endangered ecosystems, and any developments should not affect these areas in a negative way. The areas which are currently listed as endangered and vulnerable are no longer affected by any form of development as this is prohibited.

A major challenge right now is ensuring that environmental management is understood by members of the rural community. With endangered ecosystems which are in the rural community the municipality is challenged by the red tape that exists as the land belongs to the Tribal Authority. The Municipality is

engaged in a partnership with Department of Agriculture & Environmental Affairs to provide education around environmental education and awareness at schools, and communities at large.

These awareness campaigns have assisted, and the Municipality has seen an increase in recycling by communities, also community members are now aware of the different biodiversity that exist e.g. wetlands. The awareness campaigns are an ongoing process and have been well received by the community and business.

Natural Resources	
Major Natural Resources	Relevance to the community
Indian Ocean Coastal Belt	Tourist attraction, enables community to be self-sustaining through fishing.
7 Nature Reserves (Mbumbazi, Mehlomyama, Mpenjati, Oribi Gorge, Skyline, Trafalgar Marine, and Umtamvuna)	Tourist attraction, assists in economic growth and employment of community members.
5 Rivers (Mbizana, Mtamvuna, Mzimkhulu, Mzumbe, Vungu)	Used by community for fishing, and other recreational activities.
27 Estuaries	Used by community for fishing, and other recreational activities.

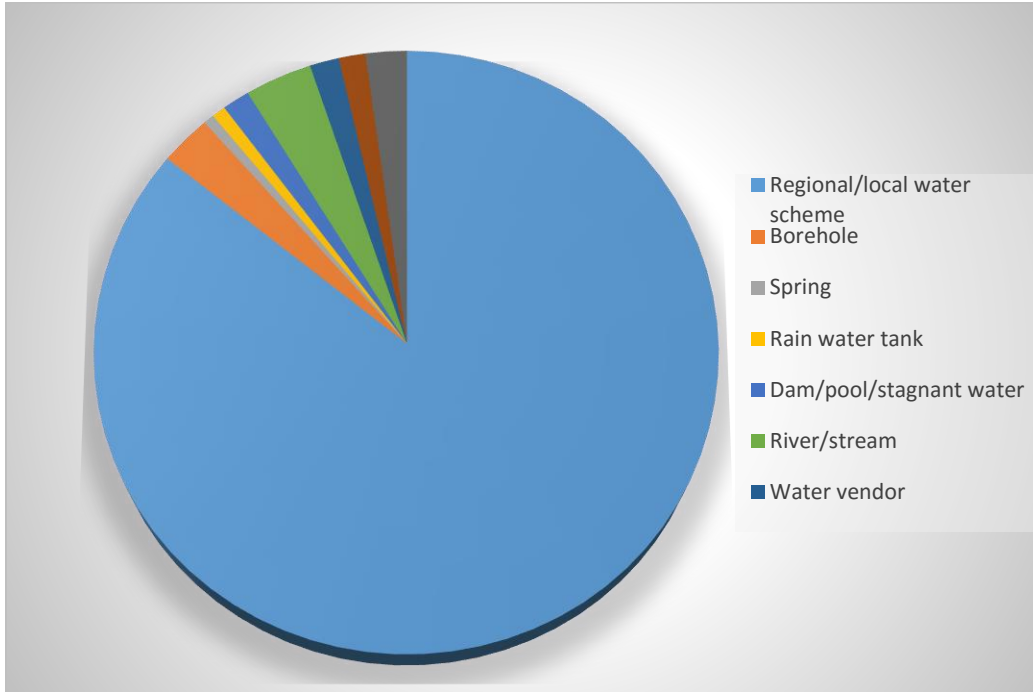

1.3 Service Delivery Overview

In terms of service delivery, the Ray Nkonyeni Municipality provides for Department of Technical Services and Community Services (Roads, PMU, Electricity and Solid Waste). The municipality does not provide water and sanitation services. Ugu District Municipality is the water authority and thus performs water and sanitation services on behalf of the Ray Nkonyeni Municipality. The municipal area is generally covered with well-developed bulk infrastructure and networks albeit with some backlog in the hinterland.

Access to water

Ugu District is the water entity to all its local municipalities. Within RNM, the number of households without access to water is estimated at 10 873 which makes up 13% of the population. The municipality noted that there are still backlogs in terms of clean water provision to some areas in rural areas. The wards with the biggest water backlog in ward 8, 15, 29, 30, 31, 32, 34 and 35. The other wards with hardship in terms of water access are ward 4, 27, 33 and 36. These households use spring, dam and rivers as sources of water and are prone to a number of water borne diseases. The Municipality has also made provision of water tankers to supply water to those communities with little or no access to water.

Graph 3: Percentage of households with different types of accessing water

Source: Stats SA 2016

Access to sanitation

Communities throughout the municipality have access to different types of sanitations. However, the flush toilet system is the most dominant in urban areas. Amongst the Ugu District Local Municipalities, Ray Nkonyeni Municipality has more households with flush toilet systems (32.9 %) followed by Umdoni Municipality with 28.1 %. It must be noted that both municipalities have large areas which are urban and the demand is extremely high. Umzumbe has only got just 2.7% households with the flush type of sanitation which may be attributed by the steep topography factor which is costly to construct water connections. The entire Ugu district has a very high number of pit toilets and these are mostly rural wards. The Ugu Water Master Plan does talk to this issue. The below graph shows this information in the entire Ugu District.

Graph 3: Main type of toilet facility used

Main type of toilet facility used	Flush	Chemical	Pit / Other	None
Local municipality 2016				
KZN212 : Umdoni	28.1	15.8	51	5
KZN213 : Umzumbe	2.7	15.3	79.4	2.4
KZN214 : uMuziwabantu	9.2	11	78.4	1.5
KZN216 : Ray Nkonyeni	32.9	2.6	59.1	5.3
Ugu	24.3	8.3	63.2	4.3

Source: Stats SA 2016

Access to electricity

Eskom supplies electricity to most areas within the municipality except for the Port Shepstone area which is supplied by the Ray Nkonyeni Municipality. Survey shows that 96% of the municipality's population has access to electricity. Some rural communities still require infrastructure connection and there is an infill backlog.

Access to refuse removal

The Free Basic Refuse Removal Policy give guidance on collection of refuse for households in the jurisdiction of the municipality. It should be noted that on-site disposal is an option where travelling distances and the resulting costs may render regular waste collection services impractical hence all households with no access to refuse collection services are serviced as level 1-2 of national domestic waste collection standards of 2011 this is well addressed through EPWP and CWP programmes.

Almost all rural wards within the municipality have a backlog in the collection of waste due to lack capacity and budgetary constraints. There are areas, however, with urgent need to have solid waste removal programme implemented. These areas are semi-rural and currently do not have the programme. These areas include;

- Bhobhoyi
- Murchison
- Qina bout and Kwa Xaba
- Gcilima
- Izingolweni (residential area)

Although the municipality is currently not uplifting waste in rural areas, however, there is a section dealing with Education and Waste programs as well as waste minimization initiatives. Some of the initiatives/study include ongoing waste education on illegal dumping/littering to communities and schools, advocating transformed attitudes in matters of waste management, school awareness programmes such

as recycling, waste reduction to landfill site, Cost efficiency to rendering of services, Route Optimization for waste trucks. These are ongoing initiatives and strategic plans for sustainable waste management which also include participating in exchange program with other municipalities to learn best practices with regards to waste collection in rural areas.

1.4 Financial Health Overview

Outstanding debt is a concern for the municipality just as it is for all municipalities, therefore one of our main priorities was to focus around debt collection. To enhance our debt collection process the municipality has created its own Credit Control Section and the function is no longer outsourced, and attorney has also been appointed into this unit. By the end of the financial year we were able to see the benefit of this by the actual collection rate of **93%** being achieved.

Electricity losses still present a major challenge to the municipality, the meter audit is currently done, we are now on phase 2 of the audit were physical verification and replacement of illegal connected meters and broken meters is done.

1.5 Auditor General Report

The municipality received an unqualified audit with other matters (refer to chapter 6 for full report) during the 2020–2021 audit. The aim is always to ensure that a clean audit is achieved but the audit opinion was accepted and the municipality has already developed a corrective action plan to address matters raised in the management letter of the Auditor General. The Municipal Manager has put in place various systems to enable the management team to work on improving systems of internal control and the development of processes to enhance reporting throughout the financial year through the Audit process steering committee which is chaired by the CFO with other managers critical to the audit process also sitting on this committee.

In achieving its unqualified audit opinion it can be attributed to the strong leadership the Municipality has employed within its ranks as well as the astute oversight role played by Council. The Municipality has a well-functioning internal audit unit supported by a well-rounded audit committee that is knowledgeable of all municipal regulations and GRAP compliance requirements. The Accounting Officer has also echoed the sentiments of working towards a clean administration and putting in place mitigating measures that respond to the risks faced by the Municipality

Chapter 2 – Governance

Component A: Political and Administrative Governance

2.1 Political Governance

2.3 Audit/Performance audit Committee Chairperson's report

RAY NKONYENI MUNICIPALITY REPORT OF THE AUDIT COMMITTEE: FOR THE 2020/21 FINANCIAL YEAR

SHARED SERVICES AUDIT & PERFORMANCE AUDIT COMMITTEE

In terms of the Municipal Finance Management Act (MFMA) and the Ray Nkonyeni Municipality's Audit Committee Charter, the Audit Committee was in place and consisted of four external independent members. None of the members were Councillors.

Members of the Audit Committee:

Mr Ashley Gonzalves	–	Member appointed April 2021
Ms Bongeka Jojo	–	Chairperson
Mrs Chantel Elliott	–	Member retired 31 December 2020
Ms Leah Thabisile Khumalo	–	Member
Mr Zwile Zulu	–	Performance management specialist

Audit Committee Meetings:

The Audit Committee met regularly, as per its approved charter, which requires a minimum of four meetings per year

Meetings of the Audit Committee as well as the Performance Audit Committee for the Financial Year were held as follows:-

- 24 August 2020
- 23 October 2020 (special meeting)
- 04 December 2020
- 30 March 2021
- 24 June 2021

1. INTRODUCTION

In terms of section 62(1)(c) of the Municipal Finance Management Act No.56 of 2003 (MFMA), the Municipal Manager is the Accounting Officer and is responsible for managing the financial administration of the municipality. The Audit Committee is appointed in terms of Municipal Legislation, to assist and to advise the Mayor, the Speaker and Municipal Manager of the Municipality. It is afforded wide powers and Statutory obligations in terms of Section 166 of the Municipal Finance Management Act. This report documents the activities of the Audit Committee operating as a shared service for the Ray Nkonyeni Municipality for the 2020/21 financial year.

2. AGENDAS AND MEETINGS OF THE AUDIT COMMITTEE

Formal Audit and Performance Audit Committee meetings took place in which the Audit Committee discussed and constructively interrogated issues.

Discussions and meetings of a more informal nature with the Internal Auditor took place from time to time. The audit committee meetings included ongoing assessment of statutory compliance, risk and financial integrity in respect of the following areas:

- (a) Compliance with legislation;
- (b) Completeness and Accuracy of Financial and performance reports;
- (c) Performance evaluation of Managers and in terms of Performance Targets;
- (d) Based on the performance management regulations of 2001, considered the Municipality's compliance with its IDP and SDBIP
- (e) Considered management of risk and emerging risks;
- (f) Considered the usefulness and reliability of all financial and performance information placed before the Audit Committee.
- (g) Internal control based on focused internal audit interventions (h) Concerns over irregular expenditure.
- (i) Considered the performance of service providers and contracts in terms of Section 166 of the MFMA.

The Audit Committee also sat regularly as a Performance Audit Committee for performance audit in respect of Section 40, 41, 43 and 46 of the Municipal Systems Act (MSA) and considered the draft annual report.

The Audit Committee initiated discussions and there was adequate opportunity to question management and which is focused on compliance with the areas of concern tested by Internal Audit.

Engagements separately with the Internal Auditor and the Auditor-General took place. An atmosphere of mutual trust and profound respect exists between the Audit Committee and Municipal Management while maintaining a healthy independence and scepticism.

3. AUDIT COMMITTEE'S RESPONSIBILITIES AND DUTIES

The Audit Committee's responsibilities are outlined in Section 166(2) of the MFMA and further articulated in the Audit Committee Charter which is approved by Council. In discharging its responsibilities for the year ended June 2021 the Audit Committee considered and advised on the following:-

3.1 Audit Committee Meetings

- Reviewed the quality of the financial information, financial statements and other statutory and regulatory reporting required of the municipality which was tabled before the Audit Committee;
- Reviewed the draft annual financial statements and the draft Performance information prior to submission to Council and then submission to the Auditor-General and made recommendations on enhancing the quality and materiality of disclosure;

- Reviewed the draft annual financial statements and performance information to ensure they present a balanced credible and understandable assessment of the position, performance and prospects of the Municipality and implemented corrective action;
- Discussed problems and possible improvements in the municipalities' operational structures and management, arising from the audit, and any matters the A.G. wished to discuss;
- Identified key matters arising in the prior year's management letter and satisfied itself that areas for improvements on non-material findings was being properly followed up;
- Reviewed the Internal Audit Plan in conjunction with Key Performance Areas and Service Delivery, including refuse removal;
- Reviewed the process of contract management including performance of service providers
- Reviewed compliance with legislation
- Advised, as far as possible, on misstatements in the Draft Financial Statements.
- Received Reports concerning the Irregular expenditure and considered Irregular Expenditure in terms of Section 32 of the MFMA read with Treasury Circular 68

3.2 Performance Management

The Audit Committee, sitting as a Performance Audit Committee, considered matters relating to performance management in order to discharge the responsibilities prescribed in terms of Regulation 14(4) of the Local Government: Municipal Planning and Performance Management Regulations, 2001.

These responsibilities included:

- Four quarterly reviews of the quarterly performance reports submitted by internal audit.
- Considered the mid-year performance review in conjunction with the adjustment budget.
- Considered Planning and Performance Management Regulations.
- Reviewed the performance management system and testing the functionality thereof and compliance with the Municipal Systems Act and the MFMA.
- Focused on the economy, effectiveness, efficiency, reliability and impact of performance applicable to the Municipality's own key performance indicators.
- Considered the application of Sections 40, 41, 43 and 46 of the Municipal Systems Act, with reference to the I.D.P. and identified the alignment shortcomings of the Municipality in this regard and reviewed same prior to submission to the Council and the Auditor General.
- Established that there has been notable compliance and alignment by the Municipality concerning Sections 40, 41, 43 and 46 of the Local Government: Municipal Systems Act in that the reporting in respect of the Integrated Development Plan ("IDP") has been found to be consistent with the objectives, indicators and targets in the approved annual performance plan.
- Performance Management during the year provided credible information indicating or giving assurance that Performance Management is receiving attention, which is particularly well received by the Audit Committee
- Considered alignment the IDP, SDBIP in conjunction with the Budget and the Adjustment Budget and the Municipalities pre-determined performance targets and its performance measures set out in the 2001 Regulations.

3.3 Financial and Performance Management

- 3.3.1 In Financial Management the Municipality has systems in place that are generally effective. There are areas of difficulty such as electricity losses, low collection levels in respect of municipal services which require consistency of efforts to improve.
- 3.3.2 Performance Management against pre-determined objectives, and compliance levels concerning statutory compliance, is a challenging and evolving field which the Municipality has dealt with purposefully and pre-emptively
- 3.3.3 Performance Management against pre-determined objectives, and compliance levels concerning statutory compliance, is a challenging and evolving field which the Municipality has dealt with purposefully and pre-emptively.
- 3.3.4 The Auditor General has found that the municipality has provided credible measures taken to sustain its performance, its evaluation and reporting of its performance.

3.4 Internal Control and Internal Audit

The Audit Committee is responsible for monitoring and advising in respect of the effective functioning of the Internal Audit activity. Internal Audit reports functionally to the Audit Committee and administratively to the Accounting Officer. The Audit Committee:-

- Has direct access to Internal Audit through a reporting relationship disclosed in the MFMA, with Internal Audit thus maintaining its independence from operational management.
- Understands the scope of internal and external auditor's review of internal control over financial reporting, and obtained reports on significant findings and recommendations, together with management's responses.
- Evaluated controls over the overall operational and financial reporting environment and reviewed the effectiveness of the internal controls.
- Assessed the adequacy of performance of the internal audit function, and the adequacy of available internal audit resources, including the independence and effectiveness of internal audit and its charter.
- Reviewed the adequacy and frequency of corrective action in terms of Section 131 of the MFMA taken in response to any Auditor General's findings raised in the prior year.
- Reviewed and approved the Internal Audit Charter and evaluated compliance with the Municipality's Internal Audit Plan and Internal Audit's interrogations with regard to internal controls.
- Frequently discussed matters with respect to risk assessment, the risk register carefully considered emerging risk, and regular, ongoing asset management and the asset register.
- Discussed at length the challenges in performance management and performance indicators.
- Monitored compliance with Legislation and supply chain management.
- Attended planned Performance Evaluations for Senior Managers
- Considered Statutory Performance, pre-determined objectives and alignment with the SDBIP.
- Received detailed internal audit reports,

3.5 Compliance, Ethics and Fraud Risks

From a review of various reports and discussions held at Audit Committee meetings the Audit Committee noted that a Fraud Prevention Strategy was in place and a Code of Conduct for Municipal staff and its Councillors in terms of the Municipal Systems Act was applied by the Municipality.

The Audit Committee is satisfied that it has complied with its responsibilities. It has reviewed the effectiveness of mechanisms for the identification and reporting of compliance with laws as set out in the pre-determined Internal Audit Plan and Regulations; and the findings of regulatory bodies or audit observations. It must be stated, however, that fraud is very difficult to detect at any level.

3.6 In-year reports submitted in terms of the MFMA

The quarterly Performance Management reports (PMS), consideration of the budget and its alignment with the IDP and SDBIP, Internal Audit reports and the Annual Performance Reports have been interrogated by the Audit Committee.

The Audit Committee reviewed these reports and was generally satisfied with the content and quality of these reports prepared in respect of performance management and issued on behalf of the Accounting Officer and management during the year under review and the minutes of the External Audit Committee reflects this. The Audit Committee has made members available to report to Council at times and to table Audit Committee minutes when Council was in session.

3.7 Internal Audit Function

During the year under review, an audit plan was prepared based on the Annual Risk Assessment. The following is a list of areas of concerns which required Internal Audit and Management's high levels of attention:

- Treasury Circulars and compliance
- Asset Management
- Reviews of Performance Management and Regulations at every meeting
- Financial Discipline
- Revenue Management
- Supply Chain Management
- Corrective Action Plans: A-G Management Report & Audit Reports
- Section 36 and Section 32 and Section 17(1)(c) of Supply Chain Management Regulations
- Annual Financial Statements
- Fraud Prevention & Ethics
- Risk Management and the Risk Register
- Property Plant and Equipment and the Asset Register
- Performance Evaluation of Senior staff members
- Considered Emerging Risk and assessment of Service Providers

The Audit Committee is satisfied with the performance of the Internal Audit function and reports that all projects in terms of the approved risk based annual audit plan had been adequately provided to the Audit Committee as required by Legislation.

4. EVALUATION OF ANNUAL FINANCIAL STATEMENTS

The Audit Committee has reviewed the credibility of the draft annual financial statements and of the Municipality's draft Performance Management assessment for the year ended 30 June 2021 prior to the same being submitted to the Auditor General before 31 August 2021. The Committee reviewed the accounting policies and practices and evaluated the draft annual financial statements based on the information provided to the Committee and considered the integrity of the statements in complying in all material respects with the requirements of the MFMA and Treasury Regulations as well as the statements of Generally Recognised Accounting Practice (GRAP).

5. COMMENTS ON THE 2020/21 AUDIT REPORT FINDINGS OF THE AUDITOR GENERAL

Audit Committee Meetings are attended, for the most part, by Members of the Auditor General's staff. They are careful not to become operationally involved but are helpful when questions of interpretation are put to them.

The Auditor General has tabled its Final Management Report and Audit Finding in respect of the year under review. The Auditor General expressed an **Unqualified Opinion** with certain compliance matters on Annexure "A".

The audit committee considered the report and has recommended to the Council that the audited financial statements and the report of the Auditor General be adopted.

Miss Bongeka Jajo CA(SA)

Chairperson: Ugu District Municipality

Shared Services Audit Committee

Date: 28 February 2022

Component B: Intergovernmental Relations

2.4 Intergovernmental Relations

The municipality partakes in the following meetings to foster intergovernmental relations:

District	Provincial	National
IGR meeting	Provincial Council on Aids	CIGFARO
Ugu District Aids Council	Munimec	Salga National Members Assembly
Ugu District IDP	Salga Provincial members Assembly	
Ugu District Disaster Forum	Premier's Co-coordinating Forum	
Water and Sanitation	Extended Premier's Co-coordinating Forum	
Ugu Council	Provincial Tourism Committee	
Ugu Special Programmes	Annual Joint Municipal Pension Fund	
Speakers Forum	Provincial Tourism Committee	

Component C: Public Accountability and Participation

Ray Nkonyeni Municipality established ward committees as one of the participatory structures to ensure that there is an effective system whereby communities can raise matters of concern that will be taken up with the municipality. The ward committee system has been effective and communities have echoed these sentiments at the izimbizo (public meetings) that have been held during the consultation periods.

Other participatory structures include the IDP Forum where ward councilors and members of the community are invited to participate and give inputs regarding the formulation of the municipalities IDP. The municipality also uses these forums to name a few; Senior Citizens, Youth and Disability forums.

There have been War-rooms launched and this has further extended the platforms of participation at ward/cluster level for the municipality.

2.5 Public Meetings

The Municipality held Izimbizo (public meetings) in each of its 7 clusters. The Izimbizo are first held during the month of November, and these are the Integrated Development Plan (IDP) Izimbizo and the public participates in shaping the IDP for the following year and makes the Municipality's political and administrative governance structure aware of challenges faced at ward level and highlight

challenges regarding infrastructure and other projects taking place in their communities even those being facilitated by another organ of state.

Thereafter the Izimbizo are held in April when the Draft Budget has been submitted to the Council. The community has an opportunity to engage with the Municipality regarding which projects have been funded for the following financial year and the planned projects for the next 3 years based on the budget submitted. The comments received at these meetings are taken into account when the Final IDP and Budget are submitted to Council for adoption. Overall the Municipality held 07 Izimbizo in November 2020. Due to the outbreak of Covid-19, April 2021 Izimbizo were held using various media platforms inclusive of Local media Houses during the 2020-21 financial year which shaped the 2021-22 IDP, Budget and Service Delivery Budget Implementation Plan (SDBIP). It is estimated that +-1500 members of the community including business participated in the IDP development process.

The Municipality also uses the IDP representative forums to engage ward councillors and other stakeholders including community members when it formulates its IDP. About +- 100 people attend the meetings which are held once quarterly. These meetings also assist the ward councillors to engage Provincial Departments regarding projects currently taking place and where communities are facing challenges and Departments need to assist in ensuring that these are resolved. The meetings not only provide a platform for stakeholders to engage with the Municipality but also for the Municipality to engage with other key role-players in Service Delivery.

Ward Committees:

The key purpose of ward committee system is to enhance participatory democracy in local government.

Below is a list of some of the issues our ward committees assisted with during the year under review:

- Reported service delivery problems in various areas of the municipality;
- Participated as steering committee members in a number of development projects;
- Provided support to ward councillors during community gatherings;
- Assisted with community mobilization for municipal programs such as Mayoral Izimbizo;
- Engaged in campaigns such as identifying indigent citizens for municipal database purposes.
- Participated in Covid-19 related activities.

2.6 IDP Participation and Alignment

IDP Participation and alignment criteria	Yes/No
Does the municipality have impact, outcome, input, output indicators?	Yes
Does the IDP have priorities, objectives, KPIs, development strategies?	Yes
Does the IDP have multi – year targets?	Yes
Are the above aligned and can they calculate into a score?	Yes
Does the budget align directly to the KPIs in the strategic plan?	Yes
Do the IDP KPIs align to the Section 57 Managers?	Yes
Do the IDP KPIs lead to functional area KPIs as per the SDBIP?	Yes
Do the IDP KPIs align with the provincial KPIs on the 12 outcomes?	Yes
Were the indicators communicated to the public?	Yes
Were the four quarter reports submitted within stipulated time frames?	Yes

Component D: Corporate Governance

2.7 Risk Management

The need for risk management is to identify, evaluate and address risks on a continuous basis before such risks can impact negatively on the municipality's service delivery capacity. It is an appropriate proactive way of managing risks and to successfully achieve the municipality's goals and strategic objectives.

Responsibility for the risk management resides mostly with line management in all departments however every employee is responsible for risk management. The Internal Audit and Risk Management Unit has played its role by conducting risk assessment workshops with management with an aim of ensuring that management understands the importance of managing risks for the benefit of the Municipality. The Municipality has put in place mechanisms to identify and assess risks and developed specific mitigating strategies, plans or actions. The risks are recorded in the risk register and are continuously monitored and reviewed by the Internal Audit and Risk Management Unit. The Council has adopted a Risk Management Policy and Framework that enables management to proactively identify and respond appropriately to all significant risks that could impact badly on the achievement of municipal goals and strategic objectives.

The Municipality has a MANCO Risk Management Committee which is made of the CFO (Chairperson), HOD: Strategic Planning and Governance, HOD: Corporate Services, Manager: Municipal Manager's Office and Manager: Administration. The standing invitees are Manager: Internal Audit & Risk Management and the Risk Management Co-ordinator. The committee's role is to guide the development and implementation of Risk Management and to review and monitor Risk Management processes and outputs quarterly.

The top 5 residual risks facing the municipality are as follows:

1. Illegal electricity connections within Ray Nkonyeni distribution area.
2. Failure to collect projected % of revenue.
3. Tender finalisations turn-around time not met.
4. Inadequate due diligence conducted on businesses being supported.
5. Servers not functional when there is power disruption.

2.8 Anti-Corruption and Fraud

Fraud and corruption strategy

The Council has approved an Anti-Fraud and Anti-Corruption Strategy/Policy. The strategy includes the Anti-Fraud and Anti-Corruption Prevention Initiatives as well as Anti-Fraud and Anti-Corruption Response Strategies. The strategy/policy has been developed because of the expressed commitment of the Municipality to fight fraud and corruption. This policy applies to all employees, councillors, stakeholders, contractors, vendors/suppliers, and any other party doing business with the Municipality. The strategy/policy provides guidelines as to how to respond should instances of fraud and corruption be identified.

The municipality has an Anti-Fraud and corruption Committee which is made of the CFO (Chairperson), HOD: Strategic Planning and Governance, HOD: Corporate Services, Manager: Municipal Manager's Office and Manager: Administration. The standing invitees to the meetings are Manager: Internal Audit & Risk Management and the Risk Management Co-ordinator. The role of the Anti-Fraud and Corruption Committee is to oversee the Municipality's approach to fraud prevention, fraud detection strategies and response to fraud and corruption incidents reported by employees, councillors, and other external parties.

The municipality's fraud hotline number is **0801 111 660** and one also has an option of using the COGTA fraud hotline **0800 701701** to report fraud and corruption activities. Internal Audit also plays a vital role when one needs to report fraud and corruption activities. This unit can be contacted on **039 688 2192** on weekdays, during working hours only.

Anti-Fraud and Anti-Corruption Prevention Initiatives

The primary objective of these initiatives is to protect the municipality, its assets, stakeholders, and its employees. The Ray Nkonyeni Municipality realises that, to achieve the objective of ensuring the provision of services to the community in a sustainable way, as required by the Constitution of the Republic of South Africa, it is important to take necessary steps to prevent fraudulent or irregular use of Municipal assets.

The Anti-Fraud and Anti-Corruption strategy clearly indicates that to prevent fraud and corruption the municipality should ensure that:

- Councillors and employees sign their code of conduct
- It has an ethics policy
- A fraud risk assessment is conducted annually
- It has a whistle blowers hotline (its own or outsourced)

Anti-Fraud and Anti-Corruption Response Strategies

The Anti-Fraud and Anti-Corruption Response Strategies set out clear, prompt, and appropriate action that must be taken when fraud is suspected. The preparation of these response strategies increases the likelihood that the crises will be managed effectively, ensuring minimum loss and appropriate outcomes. These response strategies are applicable across all sectors of the Ray Nkonyeni Municipality (RNM) and adherence thereto is vital to ensure effective management of fraud incidents.

The priority of the Council, Anti-Fraud and Corruption Committee and Top Management is to ensure that there is effective response to all reports of fraud or irregularity and those employees and third parties who are guilty of fraud are dealt with appropriately. A zero-tolerance approach and effective response to all incidents of fraud will send the appropriate message to perpetrators and ultimately lead to a reduction of fraud within RNM.

2.9 Supply Chain Management

Overview Supply Chain Management:

In terms of Section 6(2)(a)(i) of the Supply Chain Management Regulations it is stipulated that for the purpose of such oversight, the Accounting Officer must submit a report on the implementation of the Supply Chain Management to the Mayor within 30 days of the end of each financial year.

General Reporting

Sections 74(1) and 104(1) (b) of the Municipal Finance Management Act (MFMA) prescribe the following regarding general reporting obligations:

“The accounting officer of a municipality [and municipal entity] must submit to the National Treasury, the Provincial Treasury, the Department for Local Government in the province or the Auditor-General such information, returns, documents, explanations and motivations as may be prescribed or as may be required.”

In accordance with MFMA Circular No. 34 all awards above R100 000 were reported on their website and was done on a monthly basis. The National Website was updated monthly live online.

Supply Chain Management Processes

The implementation of the day-to-day procurement for goods and services below R30 000 was done on the MUNSOFT system. Ray Nkonyeni Municipality as a newly established municipality is using the mentioned financial management system. Reports listing all transactions and information for all procurement under R30 000 are compiled monthly by the SCM officials.

The municipality is now transacting on MSCOA with no SCM related problems, the system providers are contacted on a continuous basis for resolving challenges that we generally encounter. Between R30 000 and R200 000 a mini tender process is followed, and a full Tender Register reflecting all relevant information is kept at the SCM Unit in Margate. Due to the lack of suitable venue and facilities, as well as the volume of this process, it is not possible to open all mini tenders in public. The introduction of the Monthly Report to the Finance Portfolio of all awards within the "Mini tender" category is being done in accordance with Section 17 of the Supply Chain Management Regulations.

A full SCM Policy and Procedure Manual have been drafted. The whole Procedure Manual was reviewed in 2020/2021 and made more "user friendly" and less cumbersome. It is a living document and will be adjusted as and if any changes are promulgated or new circulars are put out by National Treasury.

Open tenders with the value of R200 000 and above follow the 3 Bid Committee System; Bid Specification Committee, Bid Evaluation Committee and Bid Adjudication Committee. The Committee members are appointed in writing by the Municipal Manager. All bids above this threshold and more than a period of one (01) year are referred to the Office of the Municipal Manager for final approval before implementation. Tenders remain the responsibility of the user Department from the inception right to the handover or closeout report.

The bidding documents are based upon the Standard Terms of Contract and bidding documents as supplied by National Treasury. Special conditions are approved if and when applicable. The PPPF Act thresholds and points allocation are applied where and how applicable. The 80/20 and 90/10 split applied to all contract values as stipulated in the PPPFA regulations.

Supply Chain Management Policy

The SCM Policy was reviewed to facilitate the creation of employment and business opportunities for the people of Ray Nkonyeni Municipality with particular reference to Historical Disadvantaged Individual's (HDIs) as cited in section 217 (2) of the Constitution of the Republic of South Africa Act 106 of 1996. The SCM policy was reviewed to align with the PPPF regulations that came into effect on 01 April 2017.

Contract Management

A consolidated Contract Management Register tie into all Supply Chain Management processes and the approved Procurement Plan. All Departments are responsible individually for their own Contract Register and is controlled by a master Register. The Procurement Plan for was also compiled and in place. This process of closely monitoring the procurement plan has ensured better utilization of capital funding, which has been a contentious issue over the past few years. The KZN Treasury has recently provided training to SCM officials.

Code of Ethics

All Supply Chain Management practitioners, as well as members of the three Bid Committees, are required to sign a Code of Ethics as approved by Council. The approved code is based upon the Code of Ethics of National Treasury. At all Bid Committee Meetings, the members have to declare their interests as part of the standing rules and approved terms of reference of the Bid Committees. New Bid Committee members were appointed by the Municipal Manager as a result of resignations or withdrawals during the year. Declaration of interest RNM employees are made the file is kept by SCM. Training was called for and Provincial Treasury assisted in basic training for the Committee Members, and it will be on-going to ensure that the Committee members are fully up to standard at all times.

Training and Competency

In accordance with the requirements of Section 8 of the SCM Regulations, as well as Section 83 of the MFMA, all SCM Practitioners must have a minimum level of competency, and the training of staff to meet the requirements is on-going in One (01) Procurement Officer is currently attending MFMP (Municipal Finance Management Programme) training, the rest of the Supply Chain Management Practitioners will be phase in as the budget permits.

Database

An advert has been placed on our website, to advise the service providers to renew their details as per the Database and was also advertised in the local newspaper. Furthermore National Treasury has implemented the central database and the officials had attended the workshop. The National Treasury introduced CSD (Central Supplier Database System), as off 01 July 2016. Ray Nkonyeni Municipality.

2.10 Websites

Municipal Website: Content and Currency of Material

Public-private partnership agreements referred to in section 120 made in 2020-21	N/A*
All quarterly reports tabled in the council in terms of section 52 (d) during 2020-21	Yes
* N/A: The municipality did not engage in activities that would result in such documentation being necessary	

Comments on Municipal Website Content and Access:

The website was fully functional during the 2020-2021 financial year, previously the full functionality of the website was hampered by several factors and this affected compliance with MFMA section 75, but with the assistance of a dedicated service provider the Municipality has managed to ensure full functionality of the website and there is continuous improvement on the website to make sure it serves ratepayers and other stakeholders efficiently. There is timeous upload of statutory documentation which has improved compliance with MFMA section 75.

All municipal libraries have wireless access to ensure that community has access to municipal information when visiting their local library. Libraries that have internet access for communities are as follows Gamalakhe, Margate, kwaNdwalane, Hibberdene, Port Edward, Ezingoleni (Cyber cadets are available to assist community), the rest of libraries have internet public access but currently no cyber cadets available to assist the community.

Workshops are being held at various schools to encourage learners with careers in computers whilst 20 schools were visited to promote the use of internet facilities.

Chapter 3 – Service Delivery Performance (Performance Report Part 1)

Component A: Basic Services

3.1 Electricity

Introduction to Electricity:

Ray Nkonyeni Municipality Department of Technical Services (DTS) provides electricity services and is responsible for the entire municipal electrical infrastructure. The responsibilities are as follows:

Electrical Maintenance

- Repairs and maintenance of all street lighting and highmasts lighting infrastructure in all wards within Municipal Areas from Hibberdene to Port Edward and in former Ezingoleni wards;
- Repairs and maintenance of all traffic Lights within the Municipal Areas from Hibberdene to Port Edward; and
- Maintenance of all municipal buildings, facilities and properties in all Wards within Municipal Areas;
- Retrofitting with energy efficient LED streetlights and LED highmasts lights.

Energy Efficiency Demand Side Management

The existing municipal electrical infrastructure was targeted for the Energy Efficiency Demand Side Management Programme included, High-Mast floodlights, streetlights, capacity building and training and energy efficiency awareness. The floodlights and streetlights luminaires in the municipality were found to be Mercury Vapour (MV) and High Pressure Sodium (HPS). The streetlights and high-mast floodlights in the RNM Municipality consume the bulk of electricity produced from non-renewable fossil fuel resources. Streetlights and high-mast floodlights, of which are used mainly for public lighting along roads and in the wards within the municipal areas. There is a need to install additional smart meters and to make use of the energy management systems to achieve the desired state of energy management within the municipality.

An energy baseline was developed which aided to assess the municipality's current energy use and provides a level for comparison with future improvements. A baseline and benchmark for energy usage by facilities and equipment was then established. Key activities and operations that consume the most energy or are inefficient were identified. Information from the energy audit was used to identify the most energy-intensive or inefficient activities and operations in the facilities.

Energy priorities for improvement were finally established. Based on results of energy assessments and audits, potential energy improvement projects and activities were identified, evaluated and prioritized. The proposed energy efficiency interventions therefore was to continue with retrofitting MV and HPS to LED Lights. The public lighting infrastructure which consists of highmast floodlights and streetlights are situated in various wards within Ray Nkonyeni municipality's area of jurisdiction and plays a crucial role for illumination and help to reduce the rate of criminal activities during the night.

Summary of energy efficiency projects

Project No.	Description	Adequacy of the installed controls and control settings (Satisfactory/ Unsatisfactory)	Energy consumption baseline (kWh/year)	kWh savings per year
1	Retrofit 16 x 1000Watt HPS High-Mast Floodlights with 500W LED	Satisfactory	70 080kWh	35 040kWh
2	Retrofit 720 x 400Watt HPS High-Mast Floodlights with 200W LED	Satisfactory	1 261 440kWh	630 720kWh
3	Retrofit 320 x 250Watt HPS Streetlights with 100W LED	Satisfactory	262 800kWh	157 680kWh
Sum			1 594 320 kWh	823,440 kWh

Electricity Distribution Network

Ray Nkonyeni Municipality has a NERSA distribution licence to distribute and supply electricity to customers. The electricity distribution area covers: Port Shepstone CBD and Beachfront, Newtown, Mbango and Mbango Valley, Oslo Beach, Albersville and Marburg Industrial. Ray Nkonyeni purchases Electricity from Eskom at a supply Voltage of 11 kV. There are two Eskom points of bulk supply to Ray Nkonyeni local municipality namely the Port Shepstone substation and the Marburg switching station.

- Operations of the electricity distribution network and electricity supply to areas as listed above;
- Preventative and corrective maintenance of the distribution network within electricity supply areas;
- Provide 24 hours, 365 days network standby in case of power outages and network breakdowns or emergencies;
- Installation of new electricity network infrastructure within the Distribution Areas;
- Infrastructure equipment upgrades and refurbishments of electricity distribution network;
- Installation of new electricity supply connections for consumers within area of electricity supply;
- Process power supply upgrades and /or downgrades upon request from consumers;
- New electricity meter installations, replacement, testing and meter auditing; and to
- Ensure compliance to National Energy Regulator of South Africa (NERSA) licence conditions :

- Annual electricity tariff applications
- Compilation and submission of technical distribution forms (D-Forms) on annual basis
- Quality of service as per NRS 047
- Quality of supply as per NRS 048
- Code of practice for electricity metering as per NRS 057
- Management of electricity losses
- Manual and automated meter readings and Billing of residential, commercial and industrial electricity customers.

Electricity Administration

The municipal consumer profile is made up of the various consumer types, including Free Basic Electricity (FBE) customers in the Eskom areas of supply. Within the Municipality's area of supply there are Domestic (conventional), Manufacturing/industrial, Commercial (conventional) and Other municipal departments.

The Electrical Section's functions include :

- Electricity billing and billing queries/enquiries;
- Develop and apply annual schedule of electricity tariffs of charges;
- New consumer applications and connections for electricity supply;
- Process consumer applications for service terminations, testing of meters
- Electricity network faults reporting;
- Electricity consumer complaints and queries;
- Provide comments for new building applications or sites rezoning within distribution area – comments on availability of electricity supply;
- Wayleaves applications.

Electricity Network Planning

- Development of an electricity infrastructure network master plan
- To include, a network development plan (NDP), network upgrade and refurbishment plans
- Implementation of the electricity infrastructure master plan
- Network load growth forecasting
- Network load flow studies

Small-Scale Embedded Generation (SSEG)

Technical Services Department developed a policy and framework for the approval and registration of Small-Scale Embedded Generators, as well as the regulation thereof relative to the requirements of the Municipality, other Policies and By-laws. The policy is applicable to all customers wishing to install systems within Ray Nkonyeni distribution area.

The policy covers:

- The conditions under which SSEG will be accepted onto the Ray Nkonyeni Municipality's electricity distribution network
- The Application and Commissioning Process for SSEG
- Contractual arrangements between the SSEG customer and Ray Nkonyeni Municipality
- Metering and tariffs for SSEG
- All existing and prospective SSEG customers in the municipal distribution area connected to the municipal distribution network, and
- Applicable technical standards and specifications.

Key amendments to the Electricity Supply By-Laws relate to following:

- a) Defines SSEG as small-scale embedded generation/generator refers to power generation installations (e.g. solar photo-voltaic, PV) of less than or equal to 1MVA (or 1000kVA) that are located at residential or commercial or industrial customer site. System is grid-tied, i.e. connected to the municipality's electrical network either directly or through a customer's internal wiring.
- b) By-law sets out procedure for approving the connection of SSEG systems – Clause 1, 11, 12
- c) By-law talks to SSEG tariffs and metering – Clause 13, 23
- d) By-law regulates wheeling of electricity – Clause 27
- e) By-law regulates resale of electricity – Clause 28
- f) Municipality's right to disconnect unauthorized or illegal connections or embedded generators that do not comply with these by-laws and the SSEG Policy – Clause 35
- g) Compliance of embedded generation systems to technical standards and to distribution network operational requirements – Clause 39.

Electricity revenue enhancement programme

Revenue Enhancement Programme focus was on electricity meters and land use/zoning audit, meter management and tariffs review and recommendations on restructuring. The project was supported by Development Bank of Southern Africa (DBSA) which provides financial support to Municipalities across Southern Africa. The aim was to develop and implement a Revenue Enhancement Programme for Ray Nkonyeni Municipality with the aim to strengthen the municipality revenue streams.

The programme identified some key interventions and focus areas for implementation by the municipality:

- Tariffs re-design by conducting detailed cost of supply study and ensure customers are charged in accordance with cost of supply study and NERSA benchmark tariffs.
- Billing and revenue improvement plans
- Data cleansing prioritize data audits and clean-up of master and meter data
- Prioritize correction of billing inconsistencies
- Installation of check meters to verify Eskom bulk purchases and to conduct energy balancing
- Replacement of analogue and obsolete meters
- Resolve environmental issues, vegetation control required to improve meter accessibility
- Re-instatement of interconnector between Marburg and Port Shepstone main intake points
- Electrification of households who are currently on free basic alternative energy programme
- Audit of free basic electricity (FBE) programme
- Field audits of land parcels to determine land use
- Electricity technical and billing process improvements
- Introduction of bulk contribution calculations policy to be approved by Council
- Curb outages due to theft and vandalism and address illegal connections
- Detailed network infrastructure studies to be prioritized for infrastructure upgrades
- Implement data and revenue management dashboard tool

- Electricity infrastructure refurbishments and replacements – electrical cables, mini-substations and inter-switches replacements
- Memorial and Reynolds switchgear refurbishment and replacement
- Establish PMO for integration between meter installation and meter management system
- Physical land use and electricity meter audits
- Linking of land use with land use scheme (zoning) and linking of land audit data to metering data
- Prioritizing key capital revenue enhancement projects requiring refurbishment/ replacement to improve revenue recovery
- Legal and governance by alignment of agreement as per municipal by-laws
- Improve data analytics, control and upgrade operating processes to automated workflow tools
- Implement integrated marketing and communication plan for simplicity and consistency in communications.

Free Basic Electricity (FBE) and Free Basic Alternative Energy (FBAE) Programme

The Free Basic Electricity (FBE) and Free Basic Alternative Energy (FBAE) programme interventions have assisted the Municipality to address a whole suite of socio-economic issues that arise from inadequate provision of energy to households and has assisted with job creation and also providing free basic services to the community of Ray Nkonyeni Municipality.

Funding is critical aspect to a successful implementation of any poverty alleviation initiative including FBAE. In line with national government support to its programme, funds are already allocated to Ray Nkonyeni Municipality for these programmes through the Equitable Share grant.

Municipal Systems Act 32 of 2003 states that a municipality must ensure that all communities have access to at least minimal basic services, i.e. receive free basic electricity subsidised to a maximum of 50 kWh per month. The municipality provides free basic electricity to on average 34 post-paid free basic electricity (FBE) beneficiaries within the municipality's supply areas. As per MOU agreement, Eskom co-ordinates and administers the prepaid free basic electricity (FBE) benefit packages to average of 3546 indigent households within Eskom supply areas. Ray Nkonyeni Municipality has 6453 registered FBE beneficiaries, of which only an average of 2592 beneficiaries purchased prepaid electricity tokens during 2020/2021 as per beneficiaries list.

The sole intention of FBAE policy is to assist in the provision of energy. The Free Basic Alternative Electricity objective is to provide indigent households in non-electrified areas by providing them with free basic alternative energy in the form of bio-ethanol gel and oils to help them meet some of their basic needs such as cooking and lighting. The intervention is aimed at alleviating some of the difficulties associated with access to energy in these households whilst the Municipality works hand in hand with Eskom towards ensuring that all communities have access to electricity through the INEP electrification

3.2 Waste Management & Cleansing

This section is responsible for ensuring that efficient waste removal in all neighbourhoods occurs and that our towns, streets and verges are maintained at a desirable level for our communities.

It has also been involved in efforts to ensure that refuse removal services are extended to those communities who were previously not receiving the service, researching on a pilot project which will see rural communities also benefiting from refuse removal services by the municipality.

In the past there were challenges with ensuring that the service is rendered efficiently due to ageing fleet but the Municipality has since resolved and implemented to purchasing two compactors in every financial year. There have been service providers engaged on a contract basis to ensure that the downtime of fleet is reduced significantly. In terms of the service delivery charter and the customer services complaints systems, there has been a recorded significant decrease which is monitored through customer care and through monthly rate payers meetings. The removal of refuse from the urban area has been adhered to with minimum standards of once per week collection for residential households and Commercial properties based on service level agreements.

It should also be noted that further clarity has been given by the National Domestic Waste Standards whereby onsite disposal is also considered a minimum service level. The strategy of the Municipality has been that of rigorous education of all communities; business sector; schools and all other key stakeholders on good waste management practices as contained in the National Environmental Management: Waste Act.

The Department is also involved in education and waste minimisation campaigns which are held to educate the communities on benefits of recycling and protecting the environment. Rigorous advocacy campaigns have been conducted throughout the different sectors of the Municipality. A two-bag project (waste diversion from landfill) was introduced as is being maintained to the households and the knowledge of recycling has increased based on the statistical information received monthly highlighting tonnage of waste recycled. There has been a noticeable decline in recycling as Ravine Lane operations were affected since the last contracted operator. The facility was vandalized and a new appointment of the operator was done.

The municipality is engaging Provincial Departments regarding funding so as to enable its project of extending services to previously unserved areas. There is continuous engagement regarding this project and the municipality is working towards its success. The municipality has applied for funding for specialized vehicles. The section is also in process of identifying privately operated recycling facilities with the hope of establishing the PPP approach on waste minimization through extension of recycling in areas that do not participate in the two-bag project.

Status of waste collection services

During **2020-21** waste collection covered mostly the primary urban nodes with limited coverage in rural wards being serviced. The municipality removes waste from Hiberdene freeway off ramp to Port Edward and Ezingoleni CBD. Waste services coverage was 34.6% of households receiving weekly waste collection. The majority (60.1%) utilised their own refuse dump and 5% of household waste were removed less frequently than once a week. The combined level of service comprises both awareness campaigns, supervision and provision of refuse bags with recyclable waste collected. Upliftment frequencies ranges from weekly to quarterly. Whereas, businesses were serviced at a minimum of 3 times a week. Waste awareness campaigns with clean-up initiatives both in urban and rural communities made a tremendous contribution in the waste management in general.

Street Cleaning and Servicing of Street Bins

These facilities were available from Umtentweni to Hiberdene freeway off ramp, main roads and CBD areas (Hiberdene, Umtentweni Spar, Commercial Rd, Rethman Dr, Port Shepstone, Shelly Beach, Shelly beach CBD, Margate, Murburg –Waterson street, Gamalakhe, St Michaels to Port Edward and Ezingolweni CBD). In-house staff is allocated to clean all these main roads. During weekend and public holidays an assistance from external service provider acquired. It must be noted that there is a need to conscientise public about bad habit of littering even when there are bins provided.

Garden Waste

The accumulated plant matter from gardening activities which involve cutting or removing vegetation, i.e. cutting the lawn, weed removal, hedge trimming or pruning consisting of lawn clippings, leaf matter, wood and soil are collected through different transfer stations. Those stations include newly established, Hiberdene, New Bolton, Ugu fresh Produce Market, South Broom and Leisure Bay. Operation times are seven days a week from 7:30-1600. The Ugu fresh produce has been affected and vandalized during the recent riots and is not operational at the moment. Hibberdene transfer station has not been officially opened. Moreover, the municipality provides verge maintenance services to the entire municipal areas including tribal authorities. It also maintains public facilities such as crèches, sports field, halls including those in rural areas. The garden waste is ultimately disposed of at Oatlands. The waste characterisation study found that there is an increase from 257 tons/month of garden waste to as much as 2 800 tons/month that arrives at the landfill site; and as such, the municipality has since encouraged users to alternatively drop off their waste at a local privately owned garden waste recycling facility through PPP approach established relations.

Waste disposal

All waste is disposed of at the Oatlands landfill site. This is a licensed Class B (G.M.B+) sanitary landfill. Landfill air space is estimated at a further 14 years. The site receives ~158.736t/day. The site is in need for expansion with the development of Cell 4C with further cells due for commencement. The remaining air space as of September, 2021 is 19 550.66 m³ and from January, 2021 the monthly incoming waste tonnages range at 5381 tonnes with peaks occurring in the first quarter of the year. This means the site will be completely full by end December 2021.

Waste Recycling

Higher order waste management principles include avoidance, minimisation, re-use and recycling. The recycling efforts in the municipal area are established and the goals for this area are to bring about effective waste avoidance and minimisation through awareness campaigns. The ambition is to expand the recycling programme to additional areas which requires additional waste characterisation and establishment of partners in more rural areas. Recycling programmes have been developed using a separation at source program and voluntary drop-off centres which are placed at strategic points (garden transfer stations and uplifted twice a week) for communities to have easy access to them. The process begins with a two-bag system for kerbside collection. Recyclables are placed in clear bags and collected separately from black non-recyclable bags. Clear bags are sent to Ravine Lane Recycling/Buy-Back Centre where further separation / baling, sorting, and weighing is carried out by a private enterprise. Additionally, six drop off centres are available for the public to engage in waste management/minimization. No volumes were available for each drop off centre however, these volumes are all incorporated into the data reported by the recycling centre (Ravine Lane) and other private recycling companies who have partnered with the municipality. Separated recyclables are collected by the municipality and sent to Ravine Lane Recycling/Buy-Back centre. Volumes of waste recycled are outlined in the table below.

It is estimated that the municipality is diverting ~25% of waste handled by the Cleansing Department through the implementation of waste minimization programs and projects and this includes waste recycled by private facilities. Based on figures from the waste characterisation study there is ~75% of the recyclable fraction still being disposed of. Furthermore, the study indicates that greens and builder's rubble can be diverted from the waste stream realising further diversion from landfill – a cumulative 7% of total landfill. Discounting the builder's rubble and assuming a 30% recovery of recyclable fraction and 50% recovery of organic fraction from the waste going to landfill, a further 3.2% can be diverted on an annual basis. There has been a noticeable decrease in recycling due to incapacity as Ravine Lane has not been fully operational due to vandalism of the facility resulting to no bailing of waste as machinery was stolen. The contracted service provider is currently sourcing machinery to start operations as this was not part of the specifications of the tender and Ravine Lane facility is currently awaiting maintenance.

Recoverable recyclable volumes are known in the mainstream areas but not in those un-serviced areas. The recovery rate is not known and thus a goal of this is to firm up on the recyclable fraction. Recycling programme was as well extended to Schools through School Environmental Waste Education Programme (SEWEP) which is an ongoing advocacy programme with Schools, recyclable waste material by the Municipality. Over 65% of schools were participating in the program. There are 3 community based groups benefiting from waste minimisation through collection and selling of recyclable material. Those groups are assisted by the Municipality, those groups are from KwaNzimakwe, Izingolweni and Murchison. This is a realisation and achievement of one of the goals in the National Waste Management Strategy 2011 which is the development of SMMEs through waste minimisation.

Landfill diversion achieved by role players in the Ray Nkonyeni Municipality

Aspect	Mass tons	Ref	Source
Tonnage over weigh bridge	45220 (from July 2020-June 2021)	A	Weighbridge data
Tonnage reclaimed	2,505.89 tons (June, 2020-July,2021)	B	Oatlands Landfill site (including scrap metal), Ravine Lane Recycling Facility, Trend recyclers, PI recyclers and Coastal Waste Services.
Total waste	45220	a	
Total recycled	2 505.89	b	
% diverted	5.5 %	e/d %	

**No waste treatment is undertaken in the municipality except for informal composting.*

Waste Information System

The Ray Nkonyeni Municipality does report onto the Waste Information System (WIS). Adjusting the volumes indicated are reflective of the Oatlands weighbridge data and recyclable waste from Ravine Lane, and privately operated recycling facilities which include Trend recyclers, PI recyclers and Coastal Waste Services. The waste types are listed only as general municipal waste that includes business waste and also recyclables tonnages.

Education and awareness

The municipality adopts a system wide perspective on waste education and awareness, recognizing that education and awareness take place in a range of formal, non-formal, informal social learning and technology enhanced learning environments. It also recognizes that many new forms of knowledge and learning can be made available through technology enhanced learning and outreach community awareness, and the concept of integrated waste management practices. The goal is to expand this to see effective involvement and buy in from the community resulting in reduced littering and more efficient waste collection and to establish a culture of compliance with regards to waste management. Currently there are public awareness campaigns promoting good waste management practices through- Media, Private sector (business), Community Based Organisations, Faith Based Organisations, Non-Governmental Organisations, schools and others. Internal training; 2. IWMP Road Shows; 3. Waste Management Awareness Campaigns; 4. Clean up programmes (litter and beach clean-ups); 5. School Environmental Waste Education Programme and Competitions; 6. Greenest Municipality Competition; 7. Adopt-a-spot programmes (currently with Informal Traders to expand to Businesses located in CBDs); 8; Two-Bag Recycling Project; and 9. Drop-off facilities. Due to Covid 19 restrictions; it has proven challenging to be physically in contact with people, hence shift to digital awareness and information circulation has been opted on. Partnership with radio stations have been established. The Municipality took the 2nd place on the Greenest Municipality Competition for the 2020/21 financial year.

The Municipality conducted profiling exercise whereby all illegal dumping hotspots were profiled. In terms of locality and waste management indicators/attributes. Education and awareness after investigations will be strongly implemented across all profiled illegal dumping spots.

Compliance and enforcement

The municipal by-laws on waste management were reviewed, adopted and gazetted to enable law enforcement agencies and Waste Management Officer (WMO) to enforce by-laws. The immediate initiatives are to integrate the enforcement of all bi-laws including nuisance bylaws so that they can be enforced by Public Safety Department. In the meantime, there is a system where residents report waste transgressions and processes of investigating that particular case is followed and finally provide feedback to community.

3.3 Cemeteries and Crematoriums

The Department have a mandate to provide additional burial space which was achieved through expansion of Oslo Beach Cemetery. It should further be noted that Izotsha memorial park which is leased out carried the bulk of the burials within the Municipality. An unaccounted percentage is covered under home burials for all the rural areas. There only two cemeteries (Izotsha memorial and Oslo Beach Cemeteries) that are fully functional and with limited burial spaces which may be depleted in a short-term period. Port Shepstone is full and closed, Albersville, Margate, Nositha and Uvongo are full and only conducting reburials. There are two crematoria which are both leased to private contractors and both of them are currently not operational. The Izotsha memorial crematoria is expected to commence operation before the end of the year, 2021 once operating licence has been issued and Oslo Beach crematoria is nearly completion with renovations and it shall resume operation either before the of this year or earlier in the year 2022.

3.5 Human Settlements

Human Settlement could be defined as _: the totality of the human community - whether city, town or village - with all the social, material, organizational, spiritual and cultural elements that sustain it. The fabric of human settlements consists of physical elements and services to which these elements provide the material support.

Over the years, this concept has developed further into a strategic framework for overall socio-economic development. The physical components of human settlements comprise of shelter (a house); basic services such as water and sanitation, electricity and refuse removal; security of land tenure rights; access to social facilities and services; economic development opportunities and improved amenity. Human settlements are the spatial dimension as well as the physical expression of economic and social activity. The creation of sustainable human settlements is inevitably an objective for social development. It defines and conditions the relationship between where people live, play and work on the one hand, and how this occurs within the confines of the natural environment. It is one of the most visible and quantifiable indicators of the society's ability to meet one of its basic needs – shelter, and a pre-requisite for sustainable human development and economic growth. Future human settlement projects within the Municipality is aimed to achieve all of these development goals within the broader national housing delivery policy, and planning and service delivery program.

The Municipal Vision (2036) has reflected three strategic objectives in the implementation of sustainable human settlements which are as follows:

- Strategic Objective 1:
 - New Housing Funding Model
 - Funding for Gap housing, social housing;
 - Transformation of informal settlements,
 - Density and green human settlement patterns.
- Strategic Objective 2: Mixed Housing Typologies
- Strategic Objective 3: Regional Bulk Infrastructure

Ray Nkonyeni Municipality has both a duty and an obligation to undertake a developmentally oriented spatial plan which subscribes to the principles of spatial justice, sustainability, efficiency, resilience and

good land use management and administration. In recognizing its duties and functions as stipulated in Section 9 of the Housing Act, Chapter 5 of the Municipal Systems Act (Act 32 of 2000) and Sections 5(1) and 21 of the Spatial Planning and Land Use Management Act, the Ray Nkonyeni Municipality has adopted a Human Settlements Sector Plan which epitomizes its 2036 vision.

The Municipality has a Human Settlement Sector Plan which is a 13 year plan (2017-2030). The Human settlement Plan is reviewed / updated annually, which is aligned to the Provincial Human Settlement Spatial Master Plan. It reflects on the policy framework, the democratic profile, and the spatial and environmental context, institutional assessments, housing needs and supply, human settlement development strategy and implementation.

Priority Housing Development Areas

In its response to the Government Gazette, Ray Nkonyeni Municipality identified and approved areas which are aligned with its IDP, Human Settlements Sector Plan and its Spatial Development Framework as its Priority Housing Development Areas (PHDA).

The areas are as follows:

a) Greater Port Shepstone N2/R102 Corridor PHDA

This area is described in the North by the water course separating Southport and Sea Park (Ward 16) till National Road (N2), coming South along N2 (towards Louisiana) till Umtentweni river and move along inland (North East direction) on the centre of the Umtentweni river (Ward 15 Louisiana) excluding Cabhane in KwaMadlala Traditional Area but including privately owned properties and the Maristella Church properties on the south of Umtentweni river joining St Faith Road. St Faith Road towards Louisiana township coming across the Umzimkhulu river covering part of Wards 12, 18, 17, 23, 21, 22 and portions of 32, 20 and 3.

b) Cluster 4: Gamalakhe Nositha

This area which starts at P200/Ray Nkonyeni road intersection towards Gamalakhe township. In Ward 26 to include Thembalihle, Mpovuzha area towards Masimula area. In Ward 25 to include Masimula area. Wards 5, 27 and 28 areas included up till intersection of Oatlands and Nositha Road coming east towards P200. Oatlands Road and P200 intersection back to Ray Nkonyeni/P200 intersection.

c) Uvongo-Margate PHDA

This area is bounded on the East by the Provincial Road Marine Drive, Uvongo river on the North and using Masinenge west boundary as its North West and Western boundary and Westgate and Sea Slope Roads as its South West and South boundary. It includes Ward 19 and 3.

d) Shelly Beach PHDA

This area is bounded on the North by the Bhoiboyi river until it abut P200 on the North West, then moves South West through P200 until the intersection with Izotsha Road. Then it moves on Izotsha Road towards South Coast Mall as its Western and South West boundary until it intersect with Marine Drive. On the Eastern side, it then moves North on Marine Drive until Somers Road and moves East towards the Beach and joins the Bhoiboyi river mouth on the North. It is part of Ward 3.

Climate Change – Consequences for Human Settlements

The Municipal area is diverse not just in terms of population and biodiversity, but also in terms of its human settlements. Urban rural and costal human settlements face particular environmental and social challenges. The projected impacts of climate change on settlements are complex and diverse.

Some key impacts on human settlements

Climate Change Phenomenon	Consequences for Human Settlements
Heat waves and drought	Increase water demand, water quality problems, increase risk of heat related mortality especially for the elderly , chronic sick for young and poor, reduction in quality of life for people without appropriate housing
Intense precipitation events and severe storms	Adverse effects on quality of surface and ground water, contamination of water supply, Increase risk of death, injury, loss of property, and diseases. Displacement of families and migration to urban areas. Pressure on urban and rural infrastructure, disruption of water supplies including transportation.
Sea level rise and storm surges	Decrease in freshwater availability due to salt –water intrusion. Loss of property and livelihood, and challenges with risk cover to property.

Impact on Urban Settlements

Increased costs of water, liquid fuels and electricity as industry inputs. Increase cost of labour linked to food, energy, water and transport costs. Direct impacts of weather on construction, electricity generation and other industries, resulting in loss of productivity. Increased risk of lack of water delivery as a result of increased demand because of higher temperatures and drying conditions. Increased population size in urban and peri-urban areas, leading to increased pressure on service delivery and competition for resources, as a result of migration from rural areas affected by climate change. Increased disruptions to transport infrastructure (roads, rails, bridges, airports,) as a result of extreme weather events. Increased risk of extreme weather events to already vulnerable informal settlements, that are often unplanned, and without extensive service or infrastructure.

Impact on Rural Settlements

Reduced productivity of subsistence farmlands as a result of rising temperatures, unreliable rainfall, and water scarcity. Increased vulnerability to water shortages because of increased evaporation, changes in rainfall, damage to infrastructure from floods and storm surges, and reduction in groundwater recharge. Reduced availability of natural resources on which many rural communities depend, because of diminished biodiversity in already degraded ecosystems. Physical isolation of rural communities as a result poor rural roads and increased flooding and erosion. Reduced food security, particularly of subsistence farmers, and resultant increase in malnutrition. Increased migration from rural settlements to urban and peri-urban settlements.

Impact on Coastal Settlements

Increased loss of property and damage to infrastructure. Increased disruptions to basic services as increasing groundwater salinity accelerates leeching of toxins from landfills threatening drinking water, and rising seas and storm surges result in backwash” though sewage and wastewater systems causing damage and hazardous pollution. Increased groundwater salinity threatening smallholder and families who depend on vulnerable aquifers for irrigation of coastal farmlands. Reduced income from tourism as a result of reduced marine recreational opportunities and increased impact on tourism supporting infrastructure, such as beach access roads.

Impact on Human Migration and Conflict

Large flows of people both from rural areas to urban, and between urban (or peri-urban) areas. Climate-related food insecurity, service incapacity, extreme weather events and water security could lead to increased migration. Migration is likely to be experienced from both other Municipal areas and Provinces. Climate change will accentuate the existing trend towards urbanization due to the negative impacts of climate change on rural livelihoods. Therefore spatial planning, design and funding for Human Settlement Programmes & Projects should be guided by environmental constraints created by climate change.

Estimated Housing Need and Housing Allocation Policy

CATEGORY (According to STATS SA -2011)	ESTIMATED HOUSING NEED
Household residing in traditional dwellings	7086
Household residing in back yard shack dwellers within informal settlements	1285
Household residing in Informal settlements	2691
Household residing in crowded conditions in formal housing	1567
Subtotal (low-income housing opportunities)	12629
Household in terms of social housing / flips (municipal workers/ Govt / banks/ industry)	16904
Estimated total Household	29 533

The Municipality has an approved Housing Allocation Policy. Its objective is to facilitate a fair, equitable, transparent and inclusive selection of applicants leading to approval for all housing development projects aimed at creating sustainable human settlements. This is achieved through determining housing needs with accurate data for planning /budgetary purposes and meeting such needs (*housing needs register*), prioritize beneficiaries with special needs (*quota allocation*), *housing for Military Veterans* and a uniform and consistent approach when allocation housing opportunities that promotes good governance (*housing allocation committee*).

However the actual need for housing opportunities within the Municipal area falling within the income bands R0 - R15 000 can only be determined accurately once the National Housing Need Register becomes fully operational within the Municipality and applicants registering their actual need. RNM Municipality is one of the Municipalities together with other Municipalities being piloted to roll out the

Housing Needs Register. The implementation of this programme is subject to capacity support being provided by the Provincial Department of Human Settlements.

Municipal Housing Accreditation

The Municipality is accredited in terms of level 1 housing function (subsidy budget planning and allocation) with a three-year Implementation Protocol Agreement which was concluded in October 2020. The aim of the Municipality is to have a project pipeline (five-year plan) to roll out housing projects to meet its housing need and ensure the creation of integrated, sustainable human settlement development. In terms of the Implementation Protocol agreement (level 1) concluded between the Provincial Department of Human Settlements and Ray Nkonyeni Municipality, the Municipality is implementing the following housing programmes:

- Rural housing programme,
- Greenfield / Informal settlement upgrading programme
- Finance linked individual subsidy programme,
- Housing rectification programme.
- Social Housing Programme

The Municipality is also required to get involved on the following housing programmes:

- Assistance of Military Veterans
- Emergency Assistance (Sukumasakhe / Disaster related housing)
- Community Residential Units
- Catalytic Projects
- Prevention of Land Invasions & emergence of new informal settlements

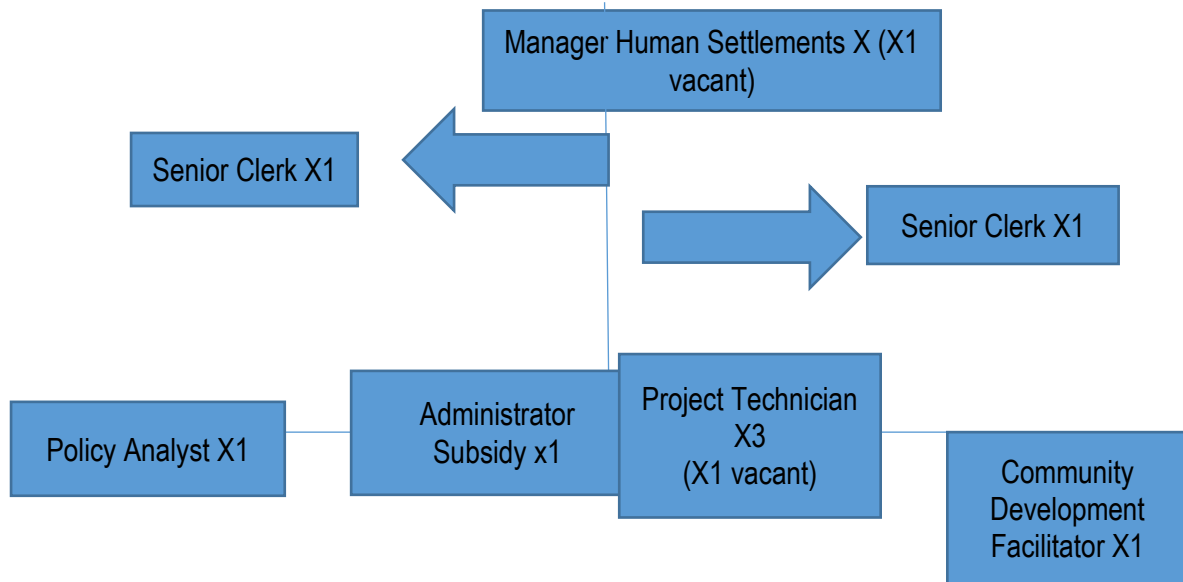

The roll out of housing programmes/ project is largely, dependent on the provision of Human Settlement Grant funding from the Provincial Department of Human Settlement, performance of Implementing Agents, Contractors, developable land & bulk Infrastructure availability. Whilst developable raw land becomes available within the Urban Environment for Social Housing, Integrated Residential Development, and Finance Linked Institutional Housing Programme to enable integrated sustainable human settlement development, however one of the key challenges faced by the Ugu District Municipality is bulk water and sanitation constraints, sewerage treatment plants requiring upgrading with major funding.

Arising from recent policy directives from the Provincial Department due to fiscal challenges all housing projects approved for implementation will be phased at 500 units at a time (per project). The Implementation of this policy directive will result in increased number of projects and thus benefiting more contractors i.e. set targets from both National and Provincial Spheres with regard to Youth, Women and Military Veterans, emerging entrepreneurs would be relatively achieved. Its terms of monitoring and evaluation of human settlement projects the following meetings takes place:

- Monthly service delivery meetings with Implementing Agents/ PDoHS. /NDoHS officials.
- Quarterly Housing Accreditation meetings with Provincial and National Human Settlement Officials.
- Participate quarterly Social Housing Programme meetings with Provincial and National Human Settlement Officials.

Human Settlement Organogram

The Human Settlement Unit falls under the Technical Services Department. The Unit is headed by a manager and has a staff of seven (7) with one vacancy. The unit basically ensures that all human settlement projects within the municipality are undertaken to meet the legislation requirement which stipulates that all people have a right to shelter. Below is the adopted organogram of the Unit.

HOUSING PROVISION

Current - Rural Housing Programme

Current - Informal Settlement Upgrading Programme conversion from Informal dwellings to formal housing.

Low Income Housing Provision (High Density Option)

Number of projects in terms of the different housing programmes

PROGRAMMES	TOTAL NUMBER OF PROJECTS	STAGES
Rural Housing Programme	14 projects	6 at planning stage 8 at implementation stage
Informal Settlement Upgrading	2 projects	1 at planning stage 1 at implementation
Greenfield Housing Programme	2 projects	1 at planning stage 1 at implementation
Social Housing Programme	2 projects	2 at planning stage
Financed linked individual Subsidy Programme (FLIPS/Gap market)	2 projects	2 at concept/ feasibility stage
Rectification Programme	1 project	1 at implementation stage
Title Deed Restoraton Programme	5 project	Implementation stage
Integrated Residential Development Programme /other	3 land parcel	Identified land parcels for further development
Institutional Subsidy Programme (Old age home upgrading)	1 project	Under planning / Implimentation stage

Housing Opportunities within the Municipality

PROGRAMMES	SITES SERVICED	UNITS ALREADY CONSTRUCTED	UNITS UNDER CONSTRUCTION	UNITS UNDER PLANNING

HUMAN SETTLEMENTS PROGRAMMES AND PROJECTS

COMPLETED PROJECTS								
PROGRAMME	PROJECT	WARD	CLUSTER	PROJECT SIZE				STATUS
					SITES SERVICED	TOP STRUCTURES BUILT	TITLE DEED ACHIEVED	
Rural Housing Programme	Vukuzithathe Phase 1 (Nkulu & Mbeni)	33& 36	1	1116	0	1116	n/a	Completed with 1116 top structures built
Rural Housing Programme	Vukuzithathe Phase 2 (Dlovinga)	3,33 & 36	1	1000	0	1000	n/a	Completed with 1000 top structures built
Rural Housing Programme	KwaNyuswa Phase 1- (Mahlabathini & Thonjeni)	34	1	1000	0	1000	n/a	Completed with 1000 top structures built
Rural Housing Programme	KwanNzimakwe (Phase 1)	1.10 and 11	2 & 3	500	0	499	n/a	Completed with 499 top structures built
Rural Housing Programme	Oshabeni (Phase (1)	4 and 12	2	502	0	502	n/a	502 top structures completed.
Rural Housing Programme	Mthimude Phase 1	36	1	1000	0	1000	n/a	989 top structures completed, 11 sites could not be built on due to various development challenges. The project is taken as complete
Rural Housing Programme	KwaXolo Ward 5; 7, 29 & 32	7;8; 29 & 32	6	1100	0	1087	n/a	1087 top structures completed. 13 could not be built due to various issues such as missing beneficiaries; double subsidy and relocated beneficiary
Informal Settlement Upgrade (urban)	Louisiana	15	1	697	0	564	564	697 - sites serviced 564- top structures built. To initiate title deed process. Waiting finalisation of all land parcel transfer to the Municipality to enable land consolidation, and opening of township register. Also to undertake TIA within the 2021/2022 financial year (budget allocated R80 000.00)

Greenfield Housing Programme (Urban)	Bhobhoi Phase 1	20	3	711	0	699	699	<u>711- sites serviced</u> <u>699- top structures built.</u> To initiate title deed process for 711sites. Addressing funding shortfall with PDoHS. Business plan to PDoHS submitted in Nov 2020.
Greenfield Housing Programme	KwaNzimakwe (PHP) KwaLatshoda	1	7	1 813	0	1813	600	<u>1813 sites serviced.</u> <u>600- top structures built.</u> Remaining units cannot be built due to bulk sanitation challenges /road expansion (R61). To initiate title deed process (600 sites) PDoHS allocated R720 000 to this project to undertake planning and survey in the 2021/2021 financial year and the appointment of the Service Provider

PROJECTS IN CONSTRUCTION PHASE								
PROGRAMME	PROJECT	WARD	CLUSTER	PROJECT SIZE				STATUS
					SERVICE SITES	TOP STRUCTURE	TITLE DEED	
Informal settlement upgrading (urban)	Masinenge (urban)	3	4	882	882	882	882	<u>Provision of internal services ongoing. 129 top structures completed to date.</u> Previous contractor services terminated. PDoHS took over the project and appointed an Implementing Agent. Contractor is on site. Anticipated completion of the project between 2023-2024
Rural Housing Programme	KwaMadlala	14	2	1000	0	1000	N/A	889 top structures completed. Balance of 111 still to be built. The project is currently being resuscitated following the liquidation of the Implementing Agent in November 2019.
Rural Housing Programme	KwaNdwalane (deep rural)	24 and portions of wards 3, 20, 21, 22, and 23	4 and 5	1 000	0	1000	N/A	995 top structures completed. Balance of 05 top structures still to be completed. Project duration 2014-2021 Anticipated project completion is 2021.
Rural Housing Programme	KwaNdwalane (Phase 2)	Portions of wards 20, 21, 22, and 23	5	500	0	500	N/A	403 top structures completed. Balance of 97 is at various stages of construction. Anticipated project completion being financial year ending 2022.

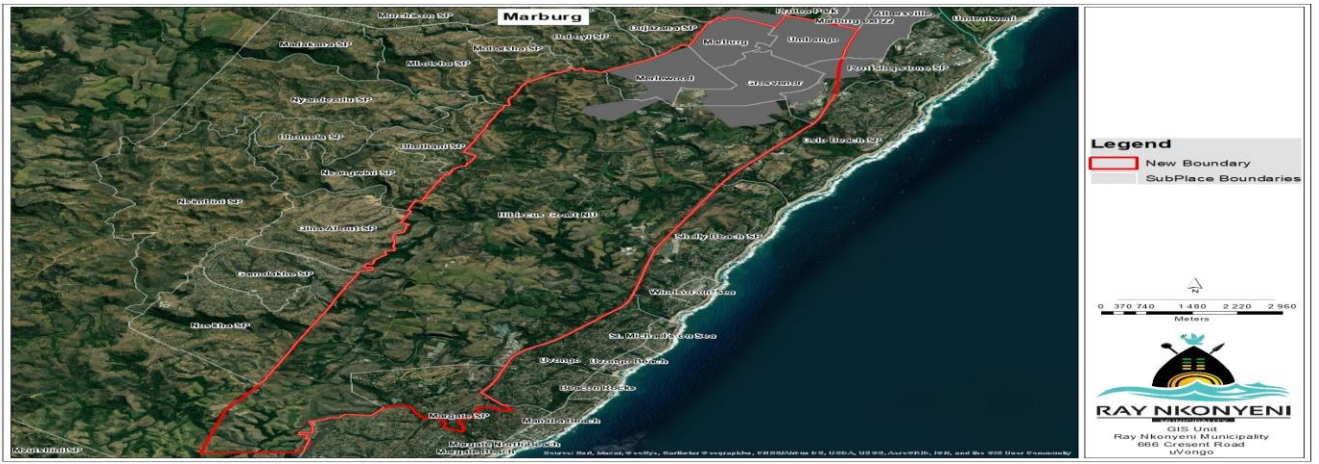

Informal settlement upgrading	Gamalakhe (insitu-upgrade)	Portions of wards 25, 26, 27, and 28	4	0	0	2000	N/A	Construction of the first phase of approved 500 units out of 2000 units is currently underway. 316 units have been built. Balance of 184 still to be undertaken. Anticipated project completion (phase 1) being financial year ending 2022
Rural Housing Programme	KwaMavundla	17, 20, 25, 26 & 27	6 & 4	1104	0	1104	N/A	1102- top structures built. Balance of 2 top structures still to be undertaken. Anticipated project completion is 2021.
Rural Housing Programme	KwaXolo (Phase 1)	7 and 9	2	1000	0	1000	N/A	977 top structures completed. 23 sites with challenges which is being addressed. Project duration March 2016-December 2021.
Rural Housing Programme	Oshabeni (Phase 2)	4 & 14	6 & 7	500	0	500	N/A	PDoHS has approved Tranche 2 (construction) for only 300 units. Project duration December 2020-January 2023). Construction has commenced on site.
Rectification - Pre- 1994	Gamalakhe Rectification	5, 26 and 28	4	273	0	273	0	258 top structures have been rectified to date. 15 units still to be refurbished. Project duration Sept 2016-October 2021.
Mixed income housing	Merlewood	17	6	228	228	228	228	137 top structures have been completed. 37 sites unbuildable. Bulk infrastructure challenges to some sites. Funding challenges (bulk water and internal services inclusive of retaining walls) being addressed between PDOHS, Ugu District Municipality and RNM. Anticipated completion being end of 2022/23 financial year.

PROJECTS IN THE PLANNING PHASE						
PROGRAMME	PROJECT NAME	WARD	CLUSTER	PROJECT SIZE	PHASED APPROACH	STATUS
Informal settlement upgrading (urban)	Mkholombe	20	6	1000	Phase 1 (500 units) Phase 2 (500 units)	In terms of the National- USDP programme detailed studies are being carried out Have challenges with bulk infrastructure and also to review the appointment of the Implementing Agent.
Rural Housing Programme	KwaNyuswa Phase 2 - WoSiyane /Nkulu	34	1	1000	Phase 1 (500 units) Phase 2 (500 units)	Project approved for Planning, detailed studies are currently underway.
Rural Housing Programme	KwaNyuswa Phase 2 - Bloese	31 & 35	1	1000	Phase 1 (500 units) Phase 2 (500 units)	Tranche 1 planning activities have been concluded and outstanding is the Development Rights agreement to be concluded with Ingonyama Trust Board.
Rural Housing Programme	Mthimude Phase 2- Hlomendlini /Bhosiki	35	1	1000	Phase 1 (500 units) Phase 2 (500 units)	Tranche 1 planning activities have been concluded and outstanding is the Development Rights agreement to be concluded with Ingonyama Trust Board.
Rural Housing Programme	Mthimude Phase 2- Shibe	35	1	1000	Phase 1 (500 units) Phase 2 (500 units)	Tranche 1 planning activities have been concluded and outstanding is the Development Rights agreement to be concluded with Ingonyama Trust Board.
Rural Housing Programme	Vukuzithathe Phase 3- Ngcawusheni / Bdlazi	30	1	1000	Phase 1 (500 units) Phase 2 (500 units)	Tranche 1 planning activities have been concluded and outstanding is the Development Rights agreement to be concluded with Ingonyama Trust Board.

Rural Housing Programme	Vukuzithathe Phase 3- Bandlana /Shobashobane	30,31 and 33	1	1000	Phase 1 (500 units) Phase 2 (500 units)	Tranche 1 planning activities have been concluded and outstanding is the Development Rights agreement to be concluded with Ingonyama Trust Board.
Informal Settlement Upgrading	Paddock (Transnet Ltd Owned)	31	1	60	60	In terms of the National- USDP programme detailed studies are being carried out
Greenfield housing programme	Merlewood middle income housing	17	2	187	187	Provision of mixed income housing opportunities with different housing typologies and densities. Still under planning.
Greenfield housing programme	Bhobhoi Phase 2	20	6	1098	1098	Project implementation stalled. Awaiting bulk infrastructure provision by Ugu District Municipality.
Greenfield housing Programme	Lot 7 Albersville	12	7	40	40	Challenges with local community and land ownership. Project is on hold due to disputes over land ownership amongst the beneficiary community.
IRDP- Mixed Income Housing	Marburg settlement (5344)- Mr Frik Pieterse)	20	6	144	144	Provision of mixed income housing with 20 sites reserved for Military Veteran. Consultants busy with planning and project programme
FLIP/ Social Housing /individual subsidy programme	Disposal of Council owned Serviced Sites in various areas (Marburg/ White City)	12,17 and 18	6 & 7	753	753	Provision of mixed income housing opportunities with different housing typologies and densities. Municipal Council has appointed an Implementing to do detailed planning with project implementation. IA has submitted Activity Plan.
IRDP Mixed income Housing	Portion 15 (of 17) Portion 16 (of 7) and the remainder of 7 of the farm Success no 7108	22	5	281	281	Provision of mixed income housing opportunities with different housing typologies and densities. Land was acquired by the PDoHS for the Municipality. Land is in ownership of the Municipality. Still to undertake detailed planning with project implementation.
IRDP Mixed income Housing	Portion 8 (of 4), Portion 46 (of 7) of the farm Louisiana Sanderstead no 15566 – Mr Chetty)	22	5	Still to be determined	Still to be determined	Provision of mixed income housing opportunities with different housing typologies and densities. Land was acquired by the PDoHS for the Municipality. Land is in ownership of the Municipality. Still to undertake detailed planning with project implementation.
Social and Rental Housing	Marburg (erven 4939 & 4941). Uvongo (erf 1675)	12,17,18 & 19	2	2273	2293	Identified Area has been gazetted as restructuring zones. Provision of Social Housing (rental option). Pre-feasibility study was carried. With bulk water provision challenges. Treatment plant needs upgrading. Ugu District Municipality is addressing the challenges, also RNM is calling for development proposals from Service Providers.
Institutional Subsidy Programme	Gamalakhe-Zibambeleni Old Age Home (upgrade)	26	4	220	n/a	Planning/ Implementation engagements taking place between the Old Home Board, PDoHS and the Municipality

KEY CHALLENGES

- Implementation on projects with regard to Informal Settlement Upgrading, Social Housing, and Mixed Income Housing is affected by the availability of bulk infrastructure services (water & sanitation). Ugu District Municipality acknowledges that it has a constitutional responsibility to provide bulk water and sanitation infrastructure to support RNM's Human Settlements Service Delivery targets. The District Municipality has commissioned a study and has drafted its Water Services Master Plan (2021-2050). The Municipality has indicated that the master plan places extreme financial challenges to meet its demand and supply and thus require external funding, partnerships with external organizations.

Component B: Roads

3.6 Roads, and waste water (Storm-water drainage)

Introduction to Roads & Storm water

Roads and Storm water remains a critical area within the infrastructure component in ensuring accessibility and mobility of residents and general road users. Programmes are in place to deal with construction, rehabilitation and maintenance of the Municipal Road and Storm water infrastructure systems. Such programmes include the Road Rehabilitation and Storm water rehabilitation programmes thereby the council approves the annual budget that deals with such rehabilitation programmes, contracts that deal with these programmes are in place on annual basis.

In addition, there are the general operations aimed at providing routine maintenance of roads and storm water systems, these include pothole/repairs, storm drainage cleaning, road marking and signage, grading and gravelling of roads.

These programmes have had a significant impact in improving accessibility especially in rural areas during rainy seasons. Challenges are still prevalent around the maintenance of black top road due to ageing blacktop surfaces and furthermore, most of our roads have reached their design life. A significant funding model is envisaged that will be directed towards major upgrading of our road and storm water systems.

Component C: Planning and Development

3.7 Planning

Introduction to Planning & Development

The Town Planning Section situated in the Department of Development Planning Services is tasked with facilitating the development of forward looking and progressive plans with the objective of planning for the future and providing guidance to the development community, both internal and external on the intentions of the Ray Nkonyeni Local Municipality in relation to land development.

The Town Planning section, in its role as part of a strategic team in the Department, plays the following key functions:

- Land Use Management and Development Control
- Spatial Planning
- Geographic Information Systems
- Enforcement, in relation to development planning transgressions

In the recent years, the section has been involved and assisted in the following projects:

- The formulation of spatial planning plans which include but not limited to the following:-
 - Spatial Development Framework for the Municipality
 - The Margate Urban Renewal
 - The Urban Development Framework for Hibberdene and Port Edward

- The Development Planning Framework for Shelly Beach, Uvongo and Margate
- Alamein Precinct Plan
- Port Shepstone Urban Renewal
- Container Policy
- Gamalakhe and Gcilima Local Area Plans
- Eziqoleni Precinct Plan

The Town Planning section is mandated to fulfil its role in ensuring the integration of land use development within the municipality is achieved. The section continues to play a significant role in the development of land use policies for sustainable development, which includes;

- The Review of the RNM Spatial Development Framework
- The Ray Nkonyeni Wall-to-Wall Scheme adopted 26 November 2019;
- Ray Nkonyeni Municipal Planning and Land Use Management Bylaw and the reviews; and
- Telecommunications Policy;

In addition, the section`s day to day work also includes but not limited to the following:-

- Office walk-in Public Consultations
- Pre-scrutiny of applications (to ensure that applications are complete and information submitted is in order before an application is submitted with an intention of improving turnaround time for development applications)
- Comments on lease of municipal Land
- Comments on lease applications to the Ingonyama Trust Board (PTO)
- Comments on applications for business licenses
- Comments on building plans received from the Building Control section
- Approving of development applications through the Spatial Planning Land Use Management Act, 2016 (Act No.16 of 2013) Joint-Municipal Planning Tribunal and Authorised Officer
- Meetings with attorneys where legal action has been instituted
- Issuing of Zoning Certificates

3.8 Local Economic Development and Tourism

INTRODUCTION

The Constitution of the Republic of South Africa bestows to Ray Nkonyeni Municipality the responsibility to promote social and economic development within its area of jurisdiction. It thus requires the municipality to structure and manage its administration, budgeting and planning processes in a manner that gives priority to the basic needs of the community and promotes the social and economic development of its area. The Constitution of the Republic of South Africa, 1996 (Act 108 of 1996) mandates local government to promote social and economic development in areas of their jurisdiction. This mandate is outlined further in the White Paper on Local Government (March 1998) which introduces a notion of 'developmental local government and identifies local economic development as one of the critical outcomes and key performance areas for this sphere government.

To implement the afore-mentioned mandate, the Ray Nkonyeni Municipality established the Department of Development Planning Services, and within this broader department, there are six (6) operational units that focusses on implementation. Such units are made up of Local Economic Development, Building Control, Town Planning, Environmental Management & Signage Control, Technology Hub and the Margate Airport. However, local economic development as a programme rests within the Local Economic Development Unit, with the afore-mentioned sister units providing support and guidance on areas of their expertise. Local Economic Development is further broken down into four (4) sub-units or portfolios, namely Poverty Alleviation Initiatives, SMME & Cooperatives Development, Tourism & Events and finally Business Regulations, Intelligence & Research. Further, although not placed within the Local Economic Development Unit, there is also an EPWP programme, which is placed in the Office of the Head of Department – Community Services. The EPWP sub-unit oversees the implementation of both incentive-grant funded projects and projects funded internally, which contributes to job creation within the municipality. Over and above projects and programmes that are being implemented by such sub-units, the department is also tasked with facilitating key and catalytic projects.

Key programmes and projects implemented within the specified portfolios

Poverty Alleviation Initiatives

- Agricultural development and facilitation
- Rural-based emerging farmer support - assistance with tools & equipment, focussing mainly on emerging small-holder farmers
- Facilitation of One Home One Garden programme in line with KZN Poverty Master Plan;
- Facilitation of Community Garden Programme, targeting community gardens across the municipality;
- Small scale fishermen & women support in line with national policy for Small Scale Fishing;
- Facilitation of the Thusong Centre programme – in Ray Nkonyeni Municipality

SMME & Cooperatives Development Portfolio

- Facilitation of Training of SMME's – both business management and technical trainings
- Facilitation of SMME awareness sessions in partnerships with key stakeholders
- Facilitation of SMME exposure programmes such as the annual SMME & Cooperatives Mayoral Fair
- Facilitation of SMME registration with statutory bodies such as CIPC, SARS etc., and
- SMME & Cooperatives Entrepreneurship Support programme.

Some of the notable achievements within the SMME & Co-operatives development portfolio, which were achieved during the **2020-21** financial year include the following:

- Twenty (20) SMMEs & Cooperatives benefitted in the implementation of the entrepreneurship support programme;
- Twenty five (35) SMMEs & Cooperatives benefitted through participation in the 2020 Edition of the SMME & Co-operatives Mayoral Business Fair;
- Fifty (50) emerging contractors continue to benefit in the partnership between Ray Nkonyeni Municipality and Master Builders Association, which is due to end in February 2022;
- Seventeen (17) emerging motor mechanics were successfully formed into a co-operative, which will then be the beneficiaries of the Marburg Motor Mechanics Workshop;
- Facilitated opportunities for (17) beneficiaries in a Biznis-in-a box partnership programme, funded by Coca-Cola Beverage South Africa (CCBSA).

Tourism & Events

Tourism Development as a sub-programme within Local Economic Development mainly focusses on developing tourism, particularly in rural areas, and thus ensuring that tourism also benefits rural communities. Projects such as KwaNzimakwe Experience, Nyandezulu Experience, which includes Nyandezulu Waterfall and KwaXolo Caves are some of the projects that have been highlighted as catalysts for rural community-based tourism. Further, the department also facilitates the implementation of the KZN hospitality youth programme, which focusses on skilling young people, who in turn contribute to the development of tourism as a sector.

Furthermore, the municipality also continues to support various other events, which are mainly private-sector led, which contributes immensely to tourism. Some of the initiatives implemented within the Tourism & Events portfolio include the following:

- Crafter development programme – trainings & material support;
- Facilitation of Events Management Committee that approves events within RNM;
- Facilitation of filming activities through the recently approved RNM Film By-Law.

Business regulations, research & business intelligence

Business regulations, research & business intelligence as a sub-programme within Local Economic Development mainly focusses on the following:

- Informal Economy management and support, which focusses mainly on processing of permits for various informal trading activities. Linked to that, is also the facilitation of support for the sector, which includes, but not limited to, facilitation of trading and storage infrastructure and facilitation of information and general capacity building for informal traders. To achieve this, the department works closely with twelve (12) Informal Trading Area Committees as well as the Ray Nkonyeni Informal Traders Chamber, which is made up of all Chairpersons of various informal trading area committees.
- Formal business licensing programme in line with Businesses Act & its regulations as well as the Ray Nkonyeni Municipality Business Licensing Policy. To execute this delegated mandate, the department works very closely with other sister departments, who provide valuable comments in the value chain of processing business licensing applications.

Margate Airport:

The municipality has recognized its strategic importance and the municipality is committed to its development. The Airport has undergone some welcome improvements, not only focused on the facilities but also the services offered to the general public.

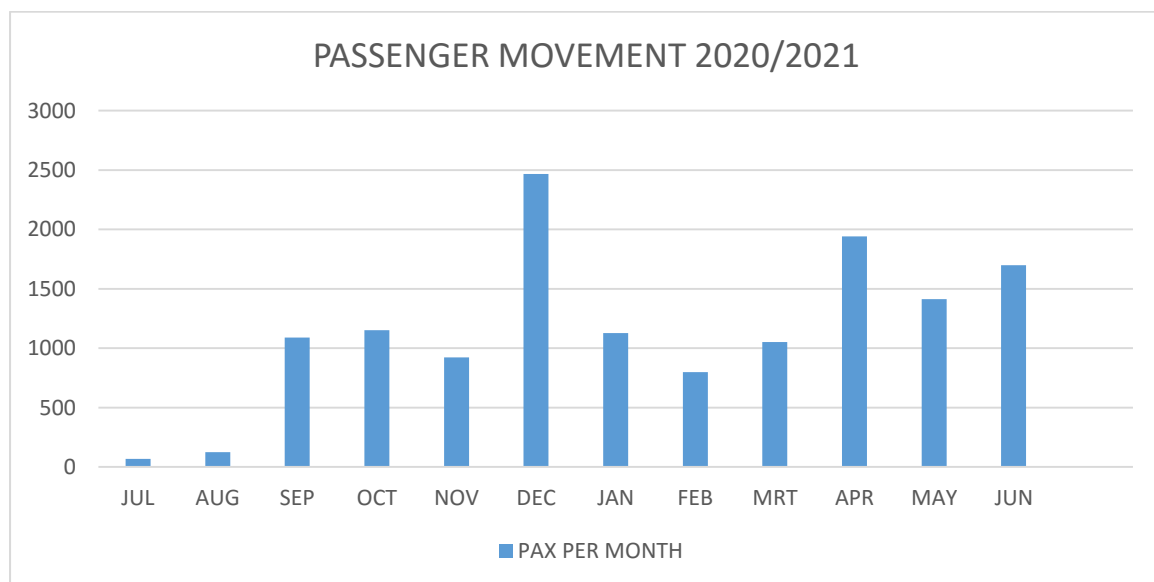

The Municipality has received grant funding from KZN Economic Development Tourism and Environmental Affairs to commence with Infrastructure Upgrades to Margate Airport. The first phase of the project is aimed to construct a new commercial office building where car rental companies will be accommodated. The ablution facilities in the Terminal Building will be upgraded and renovated together with the upgrade of the entrance and reception area to accommodate more passengers.

There is a significant potential for Margate Airport to run efficiently and grow as it serves a significant portion of the Northern and Eastern Cape and a high percentage of the users are businesspeople living in KZN with their families but working in Gauteng.

The sustainability of commercial flights provided by CemAir to and from Margate Airport is a major turning point for the tourism industry of the KZN South Coast. The area has so much to offer and Margate Airport is a key piece of infrastructure that is contributing to the region's ability to bring people to the area and stimulate economic growth.

We are very pleased that the airline, CemAir commenced with scheduled flights service between Margate Airport and OR Tambo International Airport during August 2020. During the declared national state of disaster and associated COVID-19 lockdown restrictions on inter provincial leisure travel, the airport received approval to commence with commercial flights. Initially the airline resumed scheduled flights three (3) times per week but included additional daily flights during the seasonal period to accommodate for the increase of passengers' numbers.

The aviation industry has been extremely hard hit with devastating impact of the COVID-19 pandemic. Margate Airport maintained compliance throughout the associated declared levels of the announced lockdown restrictions and related applications thereto. The impact on both aviation, travel and tourism, with only domestic business travel that was allowed impacted on the decrease of passenger movements during the declared state of emergency.

Margate Airport strives for constant improvement in the services offered , not only to the passengers but also to the general aviation public.

Component D: Community and Social Services

3.1 Arts & Culture (Libraries, Museums, Community facilities)

The Mandate of the Art & Culture is to collect, record, preserve, develop, protect , promote arts,culture and heritage and provide access to information . There are thirteen (13) libraries , five (5) mobile library units and two (2)museums. Mobile libraries established to extend library facilities where there are no functional libraries.

Libraries

Libraries circulated 185 266 issues for the period under review. The section has conducted twelve(12) outreach programmes to ensure accessibility of information to our communities. Five(5) Mobile libraries have been established to extend library facilities inland where there are no functional libraries .

Free public internet access has been provided at libraries:

Cybercadets have been appointed to train patrons on computer literacy skills at Gamalakhe, Margate, Hibberdene, Port Edward , Sazi Nelson, Port Shepstone and Ezingoleni. All our libraries have free Wi-fi internet public access. Conducted six (6) cybercadet workshop and visited 15 schools to promote the usage of internet facilities in libraries and empowerd our communities. Trained 181 candidates on computer literacy. Conducted (2) two book clubs workshops to promote reading and writing especially on marginalised languages.

Museums/galleries

Port Shepstone Cultural history / maritime museum conducted oral history to promote time travel on ocean economy and heritage awareness programmes . Document untold local history in partnership with Provincial museum services and twinning association. Hosted travelling exhibition on Mandela Luthuli exhibition in partnership with Nelson Mandela Museum .Hosted science week on climate change sixteen (16) schools participated.

The Margate Art gallery museum has created a platform for the local artist to showcase and exhibit their art works .Held three (3) visual art exhibitions. Created interest amongst our youth and other categories that visual art and performing arts can be taken as a serious career path. On-going Saturday art classes and residential art at Margate Museum to empower vulnerable children with artistic skills. Hosted indigenous festival to promote social cohesion.

Conducted behavioural change workshop for maidens to address social ills and moral regeneration. Mobilize maidens to participate in the annual Royal reed dance ceremony.

Community facilities (Amount of revenue generated from hall hiring)

There are currently 8 urban halls and 45 rural halls. Halls have been made accessible for Council purposes and for hiring by the public. In the year under review the amount of revenue generated from hall bookings was R274 361.00

T 3.12.6

3.2 Aquatic Safety (Beach Management)

INTRODUCTION

The Aquatic Safety section has the following areas of responsibility under its mandate; Provision of lifeguards on 20 bathing beaches, maintaining 5 registered/ licensed Boat Launch sites, 19 Tidal pools, 9 fresh water swimming pools and the management of the prestigious International Blue Flag campaign on five (5) full status Blue Flag beaches and two (2) pilot Blue Flag beaches within the Municipality. The top 3 rated service delivery priorities for the Aquatic safety section are as follows:

Employees: Aquatic Safety					
TASK GRADE	2019 - 20	2020-21			
	Employees No.	Posts No.	Employees No.	Vacancies (Fulltime equivalents) No.	Vacancies (as a % of total posts) %
TG. 14 - 16	1	1	1	0	0%

TG. 4 - 8	13	13	11	2	15%
TG. 3				0	
Total	17	17	15	2	12%

1.) Water Safety

Approximately 11 years ago the former Hibiscus Coast Municipality now called the Ray Nkonyeni Municipality outsourced its Lifesaving functions to private companies who provide/ train and manage Lifeguards. The service was recently advertised as the three (3) contract with Tower 13 Lifeguard Services had come to an end. The new Tender specified that the RNM was going to set up a panel of Lifeguard Service providers to create more opportunities for emerging companies to compete. The Tender was split into three (3) sections. Main and Blue Flag beaches, Seasonal beaches and swimming pools. Three service providers were eventually appointed and they are Emthonjaneni PTY LTD, Mzantsi Facilitators and Magmar Consultants. There are 10 main beaches and 10 seasonal beaches which

stretch over an area of 72 kilometres from Hibberdene in the north to Port Edward in the south. The three (3) service providers employ the services of locally based youth and continually train and empower them to work either fulltime or seasonally on the various beaches.

In the Tenders awarded to the three (3) service providers a value added clause was written into their tenders which states that they have to plough back into the community during their 3 year contracts. This service to the community need not be monetary by nature but must be made up of educational programs aimed at the upliftment of the community. They are also required to visit rural schools on a monthly basis and offer water safety talks using Lifeguards in their employ to host these programs. The service providers allow Lifeguards in their employ to register for various extra mural courses which they may want to pursue in the future and financially assist them to partake in the courses. In this way they empower their own staff to improve their qualifications whilst being employed. The decision to further ones studies is left entirely up to the individuals to partake in.

The three (3) service providers employ 25 permanent Lifeguards on a 3 year basis which is the extent of the contract and during school holidays this number increases to approximately 90 additional temporary lifeguards to assist the permanent staff. The temporary Lifeguards are all local and are members of either of the 2 Lifesaving Clubs operating in the RNM. Most of the temporary staff are still scholars and this opportunity allows them to earn money during their vacation.

2.) Blue Flag Campaign

The Internationally renowned Blue Flag campaign was introduced into SA approximately 20 years ago by the Department Agriculture and Environmental Affairs. SA was the first country outside of Europe to be granted permission to partake and fly Blue Flags on specific beaches which comply with all the required international Blue Flag criteria of which there are approximately 32. The Ray Nkonyeni Municipality joined the campaign a year after it was introduced by DAEA and the following year had Margate Beach declared a Blue Flag beach. The RNM is the second longest local authority in SA participating in the campaign and is second only to Nelson Mandela Bay Metro Council.

After the establishment of the BF campaign in SA, DAEA relinquished control of it to an NGO known as the Wildlife and Environmental Society of South Africa WESSA. The RNM has had such a good working relationship with the BF coordinator from WESSA that some of the SA criteria adopted with regards to Lifeguard requirements was based on communications between WESSA and the RNM Aquatic Safety section.

During the **2020-21** Blue Flag season the RNM has a total of 5 Blue Flag beaches. A further point worth mentioning is that KZN is the only province within SA that has Blue Flag beaches for the entire 365 days of the year. Most other local authorities to the south only offer public BF beaches 2 to 4 months a year.

Blue Flag beaches offer public the peace of mind that they comply with 32 criteria points of which the 4 main ones are:

- * Sound environmental management
- * Environmental education initiatives
- * Safety and Security for users

* Excellent bathing water quality

It's safe to say that the RNM is the leader of blue Flag in KZN notwithstanding the fact that it has to contend with 2 metro councils to the north.

3.) Environmental Education Programs Blue Flag Requirements

One of the spinoffs of the Blue Flag campaign is the fact that each BF beach has to host at least 5 Environmental Education projects to local and rural schools. These programs are carefully crafted together with the Waste Minimization unit, Fire Department and Safety and Security sections that visit schools as a group and host various programs to empower children on a wide range of subjects. The Aquatic Safety section has a program that includes the importance of marine protected areas, pollution in natural streams and its effect on estuaries, the protection of all marine animals to ensure sustainability for future generations and lastly water safety. The three (3) service providers play a huge role in the programs as they assist by sending staff to host the water safety sections as well as environmental education programs. This is a very gratifying part of Aquatic Safety as empowering children on environmental issues is a huge sense of achievement as it is becoming ever more prevalent that the future of our world depends on how we choose our future.

3.3 Special Programmes (Child care, Aged care and Social Programmes)

Introduction

There is a need to ensure that our communities are cared for and that support is given to those who are vulnerable in our communities. This unit within the municipality seeks to ensure that senior citizens, people living with disabilities, vulnerable children, farmworkers, and those people affected by HIV/Aids receive the necessary support to be able to cope in their communities.

Their programmes also focus on women and men empowerment which assists in providing life skills training that ensure that these men and women can sustain themselves through their own labour.

There are also programmes targeting awareness around women and child abuse which ensures that communities are well informed and empowered regarding their rights and how to act in such instances of abuse.

Projects:

Child care:

- Back to school campaign, 15 schools benefited.
- Dress a school child campaign; 195 school children benefited from the programme. 15 people per school
- 15 schools benefited Sanitary dignity campaign programme

Aged care:

- Provision of Walking device in a form of walking sticks to 36 wards, 15 per ward.
- Provision of Nutritional supplement in a form of Future life(80 Beneficiaries)

Disabled care:

- Disability Forum meeting held for 75 people

HIV/Aids Programmes:

- Consultative workshop on HIV/AIDS for 30 People

Gender Programmes :

- Women funding 8 Companies benefited from these programmes

Farm Workers Programmes:

- Conducted a need analysis in farms (with the aim to obtain information of people need to do identity documents, birth certificates and social grants)

T 3.14.6					

Component E: Environmental Management & Signage Control

3.4 Environmental Management (pollution control, biodiversity, landscape and coastal protection)

Introduction:

The Ray Nkonyeni Municipality contains several ecosystems, both aquatic (fresh water and marine) and terrestrial (grasslands, forests). Fresh water aquatic ecosystems include several rivers and associated with these rivers is a significant number of wetland habitats. The municipality has a priority to conserve these ecosystems, not leaving aside dune and seashore environments as well as several estuaries where the rivers enter the Indian Ocean.

Environmental Compliance and Monitoring

The Ray Nkonyeni Municipality has a responsibility of ensuring compliance with Environmental Legislation. Environmental audits are conducted continuously, and good partnerships formed with

other stakeholders such as Department of Economic Development, Tourism and Environmental Affairs (EDTEA); Department of Transport (DOT), Department of Water Affairs (DWA) and other relevant Departments.

Over the past year, there has also been constant monitoring at Margate beach, Nkongweni Lagoon as well as Ramsgate Beach, IBilanhlo Estuary. Monitoring has been done because of the ongoing issues which are being experienced at Margate and Ramsgate Beach (which are some of RNM's main socio- economic hubs). Audit reports and monthly reports submitted monthly contain detailed information.

The section also conducts site inspections based on the Town Planning applications and Building plans received for scrutiny.

Environmental education and awareness

The Municipality has always hosted annual arbour day initiatives which entails the planting of trees, giving away seedlings and awareness initiatives to schools and communities. This initiative could not be held as per the normal practice due to Covid 19 Regulations. The Municipality working with the Department of Forestry as well as EDTEA managed to give away trees to schools and drive greening initiatives within the RNM.

Sector Plans

The Municipality has a legal obligation to have certain plans in place in order to ensure compliance with some pieces of Legislation.

Nkongweni Estuarine Management Plan:

As previously stated, that the Ray Nkonyeni has faced challenges regarding the damage caused at Margate Beach due to water cutting through or along the bank of the beach affecting municipal infrastructure. This has necessitated the municipality to seek remedial measures must be in line with EIA regulations, 2010. The National Department of Environmental Affairs has since funded and undertook the Development of the Nkongweni Estuarine Management Plan. This plan is meant to be a long-term intervention measure which will address the historic issues at Margate Beach and Nkongweni Estuary. At this time of report, the Nkongweni Estuarine Management Plan is nearing completion.

Ray Nkonyeni Municipality Alien Invasive Control Plan:

The development of this plan is a requirement in terms of the National Environmental Management: Biodiversity Act (Act 10 of 2004) and its Regulations (Alien and Invasive Species Regulations, 2014). Section 76 of the Act requires that all Protected Area Management Authorities and all other "Organs of State in all spheres of government", including all municipalities, draw up an "Invasive Species Monitoring, Control and Eradication Plan for land under their control". These plans must cover all Listed Invasive Species in terms of Section 70(1) of the NEMBA.

The Alien Invasive Management Plan for the Municipality was adopted by Council and submitted to the National Department of Environmental Affairs in 2018 for consideration. The review process had stalled, due to internal challenges (which have since been resolved) within the National Department of Environmental Affairs. At the beginning of September 2021, the Department was finally able to

conduct inspections throughout the RNM as a means of verifying the information contained in the Control Plan and we are currently awaiting their feedback.

Signage Control matters

The section has identified the proliferation of illegal signs within the Municipality and has therefore embarked on the issuance of notices to offenders of illegal signs. Illegal posters and signs are removed daily in the different zones. Clean up campaigns have also been initiated in partnership with the Department of Community Services. The appointment of a service provider to monitor and enforce compliance has resulted in an improvement of proliferation.

Component F: Security and Safety

3.5 Protection Services

The section comprises of 2 sections, North and South with the following primary functions:

- By-Law enforcement;
- Traffic Management and
- Crime Prevention

There are 7 operating areas/zones:

North:

- Zone 1 (From Hibberdene to uMzimkhulu bridge and hinterlands)
- Zone 2 (From the uMzimkhulu bridge to Bhobhoyi bridge and hinterlands)
- Zone 3 (From the Bhobhoyi river to St. Michaels bridge and hinterlands)

South:

- Zone 4 (From St. Michaels bridge to eNkongweni Bridge and hinterlands)
- Zone 5 (From eNkongweni Bridge to Mpenjathi Bridge and hinterlands)
- Zone 6 (From Mpenjathi Bridge to Mthamvuna Bridge and hinterlands)
- Zone 7 (From Paddock to eNqabeni and surrounding areas)

3.6 Fire & Disaster Management

Introduction

The section is responsible for ensuring that the Municipality is properly equipped to respond to instances of fire and disaster. The section monitors the Municipality's disaster management plan and ensures that it is reviewed constantly. The section has introduced a 24 hour shift system which has seen response times improve greatly as staff no longer responds from their homes to emergencies.

The section is also responsible for inspections regarding fire safety at business premises etc. these are conducted on a daily basis and also it is involved in on-going basic awareness programmes including programmes for informal dwelling fires.

Component G: Sport and Recreation

3.8 Sport and Recreation

The municipality through its Youth Development office has ensured that sports activities are part of the culture in our surrounding community. The municipality has ensured that it maintains its good relationship with the Ugu District Department of Sports and Recreation. The municipality itself also encourages communities to be involved in sports event as this leads to healthy lifestyle programmes within communities.

The municipality has supported the Department of Sports and Recreation in ensuring that sports development programmes are facilitated within local communities. The youth development unit has launched the sports federation in 2017 and it is still functional despite the challenges caused by the pandemic. Sports activities were stricken out of the municipalities' budget in 2019 due to cost containment measures. However, the youth unit in partnership with DSR has developed a good relation in ensuring sport activities are continued without funding from the municipality. Sporting activities were further restricted for the year 2020 due to Covid-19 restrictions bur later resumed when restrictions were eased.

In ensuring that young people are kept active the municipality facilitates the hosting of an annual Karate tournament which aims to expose young participants to a more international standard in terms of the karate art. The municipality also support of local leagues. We have partnered with the Department of sports and recreation in hosting football and netball tournament for young people between the ages of 10-15. The event was held at Nyandezulu Bhuqu sports ground in June 2021 and Masidlale community games held at KwaMadlala ward 14 in July 2021.

The Special Programmes unit has ensured that we promote healthy lifestyle programmes amongst our elderly by hosting of the Golden games and also the hosting of the sports day for the disabled members of our community has encouraged inclusive and participatory activities for all members of the community.

Through the Employee Wellness unit, the municipality has managed for the past years to successfully host an employee sports day, this allows employees to participate in various activities such as netball, soccer, volleyball and other fun games. This tournament allows

employees to compete and win trophies for their departments and the atmosphere is always jovial.

Through our Public Works section, the municipality strives to ensure that all communities have access to sports facilities and other public facilities (i.e. Halls, and crèches), the section remains one of the fundamental areas in terms of betterment of the livelihood of our communities by achieving the mandate of rural development precisely.

It is highly critical in a sense of this nature that it plays a pivotal responsibility in eliminating the social ills in communities by construction of community halls, crèches, sport fields and general renovations of public facilities. These facilities are a catalyst amongst communities in realized social cohesion which in turn is a positive manner of bringing harmony and tolerance amongst diverse cultural individuals in their respective communities.

Through such positives there are negative elements realized for instance an unclear operations and maintenance programme from the Municipal Infrastructure Grant that require an urgent attention because public facilities especially in the rural areas are highly subjected to extreme vandalism.

Component H: Corporate Policy Offices and Other Services

3.9 Executive and Council

Introduction

The Office of the Municipal Manager is assisted in its functions through the following units within the Municipality:

Internal Audit: The unit provides independent assurance regarding the financial performance of the municipality and its performance against set targets in the Service Delivery Budget Implementation Plan. The Internal Audit unit reports directly to the Accounting Officer and the Audit Committee. The Manager of the unit sits in all the major committees and remains independent of the Administration.

Risk Management: The municipality has heeded the call from the office of the Auditor General and is working towards ensuring that it tackles areas of concern that affect its reporting processes. One of the means identified was the establishment of the risk management office and this is a step that was well supported by Council and the administration. The Risk management officer sits in all the major committees and a Risk monitoring committee has been established to continuously monitor risk as there is a constant need to detect and respond to diverse risks affecting the operations of the municipality.

The Strategic Planning & Governance Department ensures that strategic guidance is provided regarding municipal functions, how municipality engages with the public, addressing the media and communicating with relevant stakeholders. Media briefings are now held monthly and this has ensured more open and frequent communication with local media houses to assist in providing accurate feedback.

The Department is responsible for some key functions that assist council carry out its duties, there are 2 Caucus secretaries who assist councillors administratively. Izimbizo (Public Meetings) are facilitated through the Speaker's office which reports to the Head of this Department, the Special Programmes unit which assists in ensuring support is given to vulnerable members of our community also reports under this Department.

The Integrated Development plan, and performance management functions are duties of this Department that requires immense public engagements to ensure that the Municipality is planning and reporting based on community needs. The Department therefore ensures the accountability of the Municipality to the community and continues to find ways of improving its services which will lead to better service delivery.

The Youth Development unit is responsible for facilitating projects that assist in youth participation within the municipality. The unit oversees the hosting of the annual youth summit which assists in public consultation of youth structures and NGOs. The unit has assisted in reviving the local youth councils, and this structure is responsible for ensuring that consultation on youth matters is conducted. Business seminars are hosted by the unit which help empower and motivate youth who are small business owners/entrepreneurs. The unit helped launch the "Queen of high schools" beauty pageant which has gained major traction in empowering high school girls through the life skills and mentoring programmes they get to be a part of. Unemployed youth are targeted through training sessions on life skills and leadership programmes. Career guidance EXPOs and counselling for high school pupils are conducted in

partnership with Department of Education, Eskom, SAICA and other tertiary institutions. The unit also facilitates the Mayoral registration fee programme which assists students who are financially disadvantaged to afford registration at tertiary institutions. The unit also plays a major role in sports development amongst the youth within the local wards and helped launch the sports federation within the municipal area.

The Customer Care and Stakeholder Relations plays a pivotal role in ensuring that the Municipality enhances its customer care focus, these are some of the tasks the section is responsible for:

Switchboard operations;
 Collating telephone calls and instrument costs;
 Compiling of database on all complaints received from the community regarding service delivery;
 Distribution of complaints to the relevant departments; and
 Responding to complainants once feedback has been received from relevant departments.

The Municipality through this section launched its Customer Services Charter and has seen increased positive feedback from the community.

3.10 Financial Services (Treasury)

The municipality's financial services office is made up of the following units:

Budget Office: Responsible for preparing the budget and related policies. This section has also ensured that the Municipality's Annual Financial Statements are prepared in-house with vast improvement over the past 3 years and this is evident in the Unqualified opinion (with other matters) expressed by the Auditor General's office during the past financial year audits and the current year's audit.

Expenditure Management: Responsible for monitoring payments made to service providers, ensuring that controls exist regarding the municipality's contract management and that all payments made by the municipality have followed the proper control process.

Procurement: Responsible for monitoring controls over the Supply chain management process and ensuring that controls exist to mitigate against any risks that might affect the supply chain processes. The unit oversees procurement process from minor purchase order, mini tenders to open bid tenders and reports on the system in place to Provincial and National Treasury as stipulated in the MFMA.

Assets Management: Responsible for monitoring and maintenance of all the municipal assets and safekeeping of all assets. Performing physical verification of assets and ensuring that the municipality maintains a GRAP compliant assets register.

Revenue: Responsible for revenue collection, the process of updating the valuation roll, billing services, providing assistance to ratepayers regarding accounts queries.

Outstanding debt is still a concern for the municipality therefore one of our main priorities is to continue being focused on debt collection. To improve on this endeavour the municipality went on tender to appoint a panel of attorneys to assist with certain cases where our own Credit Control Section has been unable to collect. The target was set to achieve at least **83%** of what

was billed during the year and by the end of the financial year we actually achieved a collection rate of **93%**.

The second General Valuation Roll came into effect on 1 July 2020 and is valid to 30 June 2021. The contracts of the Valuation Appeal Board members, as established by the MEC, ended in December 2013 and a new board was established and commenced with hearing the appeals lodged with the municipality in the new financial year.

Electricity losses still present a major challenge to the municipality so in the new-year the municipality proposes to conduct a meter audit with the intention to identify where the losses are emanating from and work on measures to reduce these losses.

3.12 Information and Communication Technology (ICT) Services

Introduction

RNM Communication and Information Technology Provide access to information users and network services.

RNM ICT responsible for provision of the following:

- User Access and termination control
- IT Security Management
- Management of email/internet security
- Server Maintenance and software installations
- Management of licensing
- Management of UPS throughout the municipality
- ETMS support

- Cloud services Microsoft Office 365
- Virtual Data Centers
- Printing solutions
- Virtual Meetings

During the financial year, the ICT unit completed the following milestones:

- Upgraded Antivirus to latest version
- Upgraded Backup software to latest version.
- IT BCP implemented.
- Resolved all AG queries.
- Local area network upgrade in Oslo Beach Firesafety.
- Wireless Network for Council chambers.
- Implementation of GFI Lan Guard – Network monitoring
- Margate Internet Failover.
- Managerial access to ETMS reports
- Recommission DNS servers
- Mscoa implementation
- Review of IT policies
- Implementation of firewall policy
- Disaster Recovery Testing
- Upgrade to email/internet filtering
- Office 365 migration

Component D: Other Financial Matters

5.8 GRAP Compliance

The municipality has been fully compliant with regards to GRAP reporting. The financial statements have been prepared to be in line with GRAP

Report of the auditor-general to the KwaZulu-Natal Provincial Legislature and the Council on Ray Nkonyeni Municipality

Report on the audit of the financial statements

Opinion

1. I have audited the financial statements of the Ray Nkonyeni Municipality set out on pages ... to ..., which comprise the statement of financial position as at 30 June 2020, the statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget information with actual information for the year then ended, as well as the notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Ray Nkonyeni Municipality as at 30 June 2020, and its financial performance and cash flows for the year then ended in accordance with the requirements of the South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and the requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2019 (Act No. 16 of 2019) (Dora).

Basis for opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general’s responsibilities for the audit of the financial statements section of this auditor’s report.
4. I am independent of the municipality in accordance with the International Ethics Standards Board for Accountants’ *International Code of Ethics for Professional Accountants (including International Independence Standards)* (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of matter

6. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Restatement of corresponding figures

7. As disclosed in note 59 to the financial statements, the corresponding figures for 30 June 2019 were restated as a result of errors in the financial statements of the municipality, at and for the year ended 30 June 2020.

Debt impairment

8. As disclosed in note 42 to the financial statements, the municipality recognised a debt impairment of R41,07 million (2018-19: R32,71 million) as the recoverability of these amounts was doubtful.

Other matter

9. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Unaudited disclosure notes

10. In terms of section 125(2)(e) of the MFMA, the municipality is required to disclose particulars of non-compliance with the MFMA in the financial statements. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion on it.

Responsibilities of the accounting officer for the financial statements

11. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with SA Standards of GRAP and the requirements of the MFMA and Dora, and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
12. In preparing the financial statements, the accounting officer is responsible for assessing the Ray Nkonyeni Municipality's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipality or to cease operations, or has no realistic alternative but to do so.

Auditor-general's responsibilities for the audit of the financial statements

13. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be

expected to influence the economic decisions of users taken on the basis of these financial statements.

14. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

Introduction and scope

15. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report on the usefulness and reliability of the reported performance information against predetermined objectives for the selected objective presented in the annual performance report. I performed procedures to identify findings but not to gather evidence to express assurance.
16. My procedures address the usefulness and reliability of the reported performance information, which must be based on the municipality's approved performance planning documents. I have not evaluated the completeness and appropriateness of the performance indicators included in the planning documents. My procedures do not examine whether the actions taken by the municipality enabled service delivery. My procedures also did not extend to any disclosures or assertions relating to planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, my findings do not extend to these matters.
17. I evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the service delivery objective presented in the municipality's annual performance report for the year ended 30 June 2020.
18. I performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
19. I did not raise any material findings on the usefulness and reliability of the reported performance information for the selected objective.

Other matters

20. I draw attention to the matters below.

Achievement of planned targets

21. The annual performance report on pages xx to xx sets out information on the achievement of planned targets for the year.

Adjustment of material misstatements

22. I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were on the reported performance information of the service delivery objective. As management subsequently corrected the misstatements, I did not raise any material findings on the usefulness and reliability of the reported performance information.

Report on the audit of compliance with legislation

Introduction and scope

23. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the compliance of the municipality with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.

24. The material findings on compliance with specific matters in key legislation are as follows:

Annual financial statements

25. The annual financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of current assets and the cash flow statement identified by the auditors in the submitted financial statements were subsequently corrected and the supporting records were provided, resulting in the financial statements receiving an unqualified audit opinion.

Procurement and contract management

26. Some of the competitive bids were adjudicated by a bid adjudication committee that was not composed in accordance with Supply Chain Management (SCM) regulation 29(2). Similar non-compliance was also reported in the prior year.

Expenditure management

27. Reasonable steps were not taken to prevent irregular expenditure of R17,55 million disclosed in note 55 to the annual financial statements, as required by section 62(1)(d) of the MFMA. The majority of the irregular expenditure was caused by non-compliance with SCM regulation 29(2).

Other information

28. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report. The other information does not include the financial statements, the auditor's report and the

selected objective presented in the annual performance report that has been specifically reported in the auditor's report.

29. My opinion on the financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion thereon.
30. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the selected objective presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
31. I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

Internal control deficiencies

32. I considered internal control relevant to my audit of the financial statements, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted in the findings on compliance with legislation included in this report.
33. Oversight and monitoring over compliance with laws and regulations and financial reporting was not diligent enough. This was due to not ensuring that the management team implemented reconciliation and review controls over regular, accurate and complete financial reports. Policies and procedures over non-compliance were also not adhered to by assigned officials.

Other reports

34. I draw attention to the following engagement conducted that had, or could have, an impact on the matters reported in the municipality's financial statements, reported performance information, compliance with applicable legislation and other related matters. These reports did not form part of my opinion on the financial statements or my findings on the reported performance information or compliance with legislation.

Investigation

35. The alleged fraud at the former Ezingoleni Municipality (which later merged with Hibiscus Coast Municipality to form Ray Nkonyeni Municipality) was investigated by the Directorate for Priority Crime Investigations (HAWKs) and has been concluded. The recommendations are currently being implemented.

Governance Portfolio Committee	<p>The object of the Governance and Special Programmes Portfolio Committee is to assist the Executive Committee by advising the Executive Committee on: -</p> <ul style="list-style-type: none"> To ensure that adequate, effective and efficient Mayoral and Executive support and communication service; To ensure that the IDP is developed within statutory provisions; To ensure implementation of an effective OPMS; To ensure a credible Annual Report for every financial year is compiled; To ensure visible participation and alignment to district vision and goals; To ensure the promotion of a culture of participatory democracy and social cohesion; To ensure Municipal Transformation and Organisational Development; To ensure a fraud and corruption free organisation is built; To ensure a conducive work environment to enable increased staff productivity; To ensure improved accountability and clean administration; To ensure improved municipal branding and image through effective communication; To ensure alleviation against multi-dimensional impact of HIV & AIDS in the communities & contributing towards curbing new infections; To ensure that ECD institutions are run effectively; To ensure provision of care & empowerment of the disabled; To ensure provision of care & healthy living of the senior citizens; To ensure provision of care & healthy living of the senior citizens; To provide support towards improved quality of education and lives of learners; To ensure well informed communities, who are empowered and aware of their rights; To ensure that the values and principles set out in Section 195 of the Constitution are promoted throughout the municipal administration.
Grants in Aid	<p>The object of the Grants- in- aids Sub-committee is to consider the grants in aids applications received and ensure that the criteria set out has been adhered to.</p>
HIV & AIDS co-ordinating forum	<p>The main purpose of the council is to coordinate all the HIV & AIDS endeavours of the Ray Nkonyeni Municipality (RNM)</p>

Committees (other than Mayoral / Executive Committee) and Purposes of Committees	
Municipal Committees	Purpose of Committee
Local Labour Forum	The Local Labour Forum, in terms of section 79 of the Act:- must seek to promote the interests of all employees in the work-place, whether or not they are trade union members; must seek to enhance efficiency in the work-place; is entitled to be consulted by the employer, with a view to reaching consensus about the matters referred to in section 84 and is entitled to participate in joint decision-making about the matters referred to in section 86.
MPAC (SCOPA)	The MPAC will assist council to hold the executive and municipal entities to account, and to ensure the efficient and effective use of municipal resources. By so doing, the MPAC would help to increase council and public awareness of the financial and performance issues of the municipality and its entities. Will provide a report on the performance regarding the Service Delivery and Budget Implementation Plan (SDBIP) to Council, and will also promote accountability to the local community; and The annual report shall be submitted to Council by 31 January annually thereafter Council shall consider and adopt the annual report within two months of it being submitted and discussed.
Public Safety	The objective of the Safety and Security Portfolio Committee is to assist the Executive Committee to promote a safe environment by: - Advising on legislation, prevention and enforcement mechanisms which are within the financial and administrative capacity of the municipality; Overseeing the enforcement of municipal law by municipal functionaries and municipal employees in order to ensure that municipal functionaries and municipal employees involved in law enforcement are accountable to a democratically elected body and Overseeing certain municipal services.
Technical Services Portfolio	The object of the Technical Services Portfolio Committee is to assist the Executive Committee to ensure the provision of Human Settlements and Infrastructural services to the communities of the municipality in a sustainable manner by: Advising on legislation and service delivery mechanisms, which are within the financial and administrative capacity of the municipality; Overseeing the delivery of certain municipal services and facilities; and Ensuring, subject to any policy that the Municipal Council may determine in terms of any National and Provincial Legislation made in terms of Section 217 (3) of the Constitution prior to the date referred to in Item 21 (4) of Schedule 6 to the Constitution, that when the municipality contracts for goods and services, it

Committees (other than Mayoral / Executive Committee) and Purposes of Committees	
Municipal Committees	Purpose of Committee
	<p>does so in accordance with a system which is fair, equitable, transparent, competitive and cost-effective.</p> <p>The provision of Technical Services to the community of the municipality in a sustainable manner by overseeing Technical, human and settlements and infrastructure development and administration.</p>
Youth	<p>To assist Council to formulate a Youth Policy for the Ray Nkonyeni Municipality;</p> <p>To provide a forum for the coordination of all youth related activities within the RNM area;</p> <p>To develop an appropriate strategy that will enable the municipality to meet its policy commitments and legal obligations to the youth</p>
Women's Caucus	<p>Lobby the municipality to develop, promote and implement gender policies and thereafter monitor and evaluate the impact of these policies;</p> <p>Oversee that there are optimal women participation on the IDP and budget processes since they are gender sensitive;</p> <p>Advise and lobby for municipal interventions to enhance economic growth of women;</p> <p>Monitor that the municipality reaches its employment equity targets at all levels of decision making;</p> <p>Create public awareness about government policies and programmes aimed at the advancement of women and children's rights and the rights of the aged;</p> <p>Advocate and commission research on the impact of gender policies on women and children (girl) at the community level</p>

Appendix F: Disclosure of interest

The Municipality has in place a system that requires that councillors and officials complete declaration of interest forms when they join the municipality, thereafter they are requested to ensure that they keep this information updated on an annual basis dependant on whether there are any changes to what the municipality has on record.

These forms are readily available and allows the municipality to monitor conflicts of interest that may arise during its operations. The municipality also maintains the declarations of interest as a standing item on all its meetings to allow councillors and officials to avoid conflict of interest on any matters arising from the meeting. The Municipal Manager supported by Council also issued a directive which forbids municipal officials from registering companies on the municipal database so as to avoid audit queries regarding trading with employees.

	FINDING	CORRECTIVE ACTION	TIMEFRAME	RESPONSIBLE MANAGER	PROGRESS/STATUS
30.	Microsoft Exchange is running on an outdated Microsoft Windows Server operating system.	<p>The Exchange server was one of the primary domain controllers and poses a high risk if decommissioned at the present time. Once additional licensing has been purchased the server will be decommissioned.</p> <p>Until such time the current finding will be added to the risk register and monitored.</p>	01 April 2021	Acting Manager: IT	<p>Done.</p> <p>IT budgeted for more O365 licenses and received a quote from Service provider for 100 licenses to be procured in July and will then upgrade the server with the remaining accounts to resolve the non-compliance issue.</p> <p>Exchange server will be decommissioned once all user accounts are migrated to O365.</p>
31.	Information Technology security awareness training not conducted as required by the Information Communication Technology Usage and Security Policy.	IT Department will conduct awareness through email campaigns and the municipal newsletter.	30 June 2021	Acting Manager: IT	<p>Done.</p> <p>Awareness campaigns conducted for all departments. These were done virtually due to Covid and there was a recording of the training that was sent to all users via email and users completed Ms forms survey as evidence.</p> <p>IT sent out an email with an attachment all IT policies presentation to all users on the</p>

	FINDING	CORRECTIVE ACTION	TIMEFRAME	RESPONSIBLE MANAGER	PROGRESS/STATUS
					30 th of June and also shared password security awareness tips on internal magazine "Ezangaphakathi"
32.	Inadequate management of the firewall.	<p>The IT department is the process of deploying new firewall. The new firewall has the required standards as per AG requirements.</p> <p>The issue of a failover firewall will be resolved as secondary firewall is to be commissioned in Margate.</p> <p>The firewall procedural manual will be updated detailing the change management procedures.</p> <p>The firewall rule expiry details will be updated in the rule description as per AG recommendation.</p>	15 April 2021	Acting Manager: IT	<p>Done.</p> <p>New firewall deployed meets AG requirements (Password is set to not expire) there's a screen shot as evidence.</p> <p>New firewall has password complexity feature but didn't have "no expiry" feature. Solution: IT used AD accounts to access the firewall to comply with password expiry requirement as AD passwords are forced to expire after 30 days.</p>

	FINDING	CORRECTIVE ACTION	TIMEFRAME	RESPONSIBLE MANAGER	PROGRESS/STATUS
33.	User Account Management Procedure omits some required information.	The UAM policy will be updated to include details of required restrictions on administrator accounts and the turnaround times for user account management requests.	30 June 2021	Acting Manager: IT	Done. UAM policy reviewed and updated.
34.	Individuals no longer employed by the municipality still have active user accounts on the Windows Active Directory and some employees had logged onto the system after their termination dates.	HR will enforce the recently adopted Exit Management policy which makes provision for IT matters. HR Manager will send a list of all terminations to IT Manager on the last day of every month as an additional control measure. IT will ensure proper documentation (Memo approved by HOD: Corporate Services) is submitted prior to re-enabling of user accounts.	Immediate and ongoing	Manager: HR and Acting Manager: IT	Done.

	FINDING	CORRECTIVE ACTION	TIMEFRAME	RESPONSIBLE MANAGER	PROGRESS/STATUS
35.	Munsoft, VIP and NMS – BRET system administrator activity logs do not contain sufficient information.	Munsoft and VIP findings will be moved to the risk register until the issues are resolved. IT Department will request Munsoft to make the necessary changes (Feature Update).	31 March 2021 30 June 2021	Acting Manager: IT	Done. - System Limitations therefore added to risk register. In progress. - Ticket opened with Munsoft. - Awaiting turnaround date as it is a major feature update. Quote received to perform upgrade to the VIP system. - Awaiting approval from MM.
36.	Duplicate user accounts identified on the Munsoft system.	IT Department will liaise with Munsoft to rectify reporting. Duplicate users have been deactivated.	Immediately and ongoing	Acting Manager: IT/Systems Administrator	Done. - Engaged Munsoft to adding surname to the user. - Only 2 people from IT are authorized to create user accounts to eliminate errors.

	FINDING	CORRECTIVE ACTION	TIMEFRAME	RESPONSIBLE MANAGER	PROGRESS/STATUS
37.	Munsoft, VIP and NMS – BRET system generated change logs not available.	VIP findings will be moved to the risk register until the issues are resolved.	01 April 2021	Acting Manager: IT	Done.
38.	Property Rates	There was an error in printing the valuation roll table from Caseware that is disclosed on the AFS therefore, management should correct the financial statements to show the full amount.	N/A	Manager Budget & Reporting	Done – finding resolved.
