## **Property Rates**

Property rates consists of multiple categories under the jurisdiction of Ray Nkonyeni Municipality, the bulk revenue is billed on three categories: Residential properties, Business and Commercial properties as well as State owned properties. The adjusted annual budget for Property rates is R492.1 million and The YTD actual billing is R480.2 million. The YTD actual is 2% less than the YTD Budget, this variance is reasonable in comparison to the anticipated annual billing revenue for property rates. The variance is caused by changing the category of property rates, the new applications of pensioner's rebates as well as Indigents applications. There was a reduction of R6 million on business and commercial. Reduction is due to a section 78 of the MPRA adjustment with an effective date of 24 January 2019. A journal will need to be passed to the correct financial year (prior year/s).

## **Electricity Revenue**

The YTD Actual for the electricity billing for the period ended 30 June 2023 is R154.0 million while the YTD Budget is R170.9 million. There is a variance of R16.9 million between the YTD actual and YTD budget. Electricity billing was adjusted downwards by R12 million in the adjustment budget which was based on the YTD performance as at the midyear assessment, electricity units consumed has continued to decline which yield to an underperformance in the anticipated revenue billing forecasted in the adjustment budget. An analysis of the decline in units consumed has been considered in the budget for the next financial year and will be closely monitored to ensure actual revenue is closely linked to budgeted revenue.

## Refuse Revenue

The overall YTD actual billing for refuse removals is R59.3 million and the YTD Budget billing is R65.7 million, with YTD variance of 10%. The budget was adjusted downwards by 4.9 million in the adjustment budget which was based on the YTD performance as at the midyear assessment. Refuse revenue is billed over ten months and an underperformance in the anticipated revenue billing forecasted in the adjustment budget is due to the new applications of rebate pensioners and indigents. The YTD performance has been considered in the budget for the next financial year and will be closely monitored to ensure actual revenue is closely linked to budgeted revenue.

## **Interest on Investment**

Investment revenue is the amount of interest earned on the amount invested with various financial institutions registered with South African Banking Council. #### Interest earned on arrear debtors

The interest charged on arrear debtors to date is R34.6 million, 21% more compared to the YTD budget of R28.7 million. This results from an increase in debtors that fail to pay timeously and therefore the debt collection policy is applied to encourage settlement of debt while also recovering revenue to the municipality.

## **Agency Services**

An upward adjustment of R2 million was made in the adjustment budget due to how well this revenue stream performed over the 1<sup>st</sup> & 2<sup>nd</sup> quarter of the financial year. Motor Licensing received less than the anticipated amount because the performance of the 3rd and 4th quarter declined.

#### **Rental of Facilities**

The YTD actuals for the rental of facilities is R4.4 million, showing a 19% variance between actual and budgeted figures. ## **Other Revenue**

Other revenue is made up of numerous miscellaneous items (e.g., town planning fees, market income, cemetery fees, clinics subsidies, etc.) and gains on disposal of assets are included. The above table gives an overview of the financial indicators of the municipality for the period ended 30 June 2023 and the indicators are broken down below.

## **Borrowing Management**

The outstanding amount in the loan from DBSA is currently sitting at R10 832 347 as of 30 June 2023.

## **Liquidity**

Current Ratio: is calculated by a total of Current Assets/ Current Liabilities.

**Budgeted Current Ratio**: R553 761/R321 834 = **1.72:1** 

**Adjusted Budget Current Ratio:** R672 729/R370 177 =1.81:1

Actual Current Ratio as 30 June 2023: R729 450/R420 208 = 1.73:1

Current ratio is a liquidity ratio used to measure whether the municipality has enough resources to meet its short-term obligations. A good ratio is R1.5-R2 for every R1 owed. The adjusted budget showed a 1.81:1 ratio and the actual ratio of 1.73:1 as of 30 June 2023. The ratio is performing reasonably well as it still within the expected norm.

Acid test Ratio: Current Assets- Inventory/Current Liabilities.

**Budgeted Acid test Ratio**: (R 553 761 - R3 301) / R321 834 = **1.71:1** 

Adjusted Budget Current Ratio: (R672 729 - R7109)/370 177 = 1.80:1

Actual Acid test Ratio: (R729 450 - R5 494)/420 208 = 1.72:1

The acid-test ratio, commonly known as the quick ratio, uses an organization's balance sheet data as an indicator of whether it has sufficient short-term assets to cover its short-term liabilities. The acid-test ratio disregards current assets that are difficult to quickly liquidate such as inventory. The acid-test ratio may not give a reliable picture of an organization's financial condition if the municipality has accounts receivable that take longer than usual to collect or current liabilities that are due but have no immediate payment needed. A good ratio is R1 for every R1 owed. Both budgeted and actual to date acid test ratio are more than this which shows that the municipality would be able to pay it short term liabilities with its easily liquidated short term assets.

The full year forecast as seen the table above takes in account the original budget less the YTD budget plus the YTD actual, this therefore gives a projection based on the YTD performance on how the municipality will perform for the financial year compared to the original budget.

A cash flow statement provides data regarding all cash inflows a municipality receives from its ongoing operations and external investment sources. As of 30 June 2023, cash from operating activities actual to date is 52% less than the budgeted YTD due to payments to suppliers and employees. The fluctuation in payments to suppliers is affected by timing of the suppliers' invoicing to the municipality which has an impact on the municipality's cash coverage. Property Rates and Service Charges are in line with the cash flow projections.
